The Maple Leaf

VOLUME XXII, 1927

Published by
The Juniors and Seniors of Goshen College
Goshen, Indiana

Foreword

A faint sense of remembrances, a vain longing to relive again the dead yesterdays, and a hazy disconcerted series of impressions are too often all that remain of our College Days when we fain would enjoy them again in retrospect.

To retain our by-gone joys, to render a true sequence of impressions and to further the cause of Christian Education at Goshen College is the purpose of this Maple Leaf. In so far as it it has achieved this, its mission is fulfilled. Accept it then, students and faculty, as a memento of your life as it was lived in the year 1926-1927. Accept it, friends, as a material expression of that which is Goshen College.

Dedication

To Harold S. Bender, who has for three consecutive years been our Staff Advisor, who has given himself unreservedly to promote the cause of Christian Education, who has sought to inspire each of us with the need of a deep Christian Experience, we respectfully dedicate this Volume.

SCHWAN COLLEGE

MAPLE LEAF

Straight and foursquare—and rugged, stand the walls,
That sheltered long a noble student band;
What memories hover in the lofty halls
Of Goshen College, dearest in the land!

—Sylvia Hostetler.

When duties of the day are done
And slowly fades the redd'ning sun,
Then students o'er thy waters glide
To College Point our mutual pride.

—Ethel Oyer.

Administration

Hazy, with a haziness of twenty-three years of service, stands the rugged Administration Building as the center of Administrative activity.

The Goshen College of Tomorrow

Every college has its aims and aspirations. In this, Goshen College is no different from any other of the numerous institutions that are scattered throughout the land. There are definite things she would like to do, positions she would like to occupy, objectives she would like to gain. In short, there is something she would like to be. Strange as it may seem in this day of amusement and pleasure, none of her interests center in the stadium nor the arena, but in the class-room, in the lecture hall, and in service. Neither do her objectives lie in the realm of the fanciful nor in fields of superficiality. All of them are practical and capable of realization and have to do with that which adds to efficiency and usefulness.

As an institution Goshen College desires to grow. She needs men and women to fill her halls, because men and women need the ideals for which she stands. In these ideals are embodied the principles of righteousness, honesty, thrift, and industry, all of which have their foundation in a character that has grown out of a faith in God. These are the principles that are applied by her masters in their search for knowledge and truth and are taught to those who pass through her halls.

But Goshen College needs not only men and women. She needs buildings. She needs a library to house the ever increasing number of books, and a men's dormitory to relieve the crowded conditions of East Hall. She needs constantly to add equipment to laboratories and class rooms to keep pace with her growing needs and demands. She also needs money—money for endowment, money for equipment, and money for buildings. All of these are needs, real needs that indicate life and growth. They are needs that are neither imaginary nor visionary but real and in time must be fulfilled.

Are these things capable of realization? A wise statesman proclaimed that he knew of no better way of judging the future than by the past. If we accept this as our criterion, then our goal may be reached. Not so many years ago there was no Goshen College, except as it existed in the dreams and fancies of those who brought her into existence, and the number who had this vision was small. But back of and over them was the Spirit that gave them their thoughts and drove them into action. Twenty-five years ago, the bricks for her buildings were unmoulded and unburned; her timbers were still unhewn and her campus was a field of grain. In these brief years this Spirit that gives dreams to the old and visions to the young, has transformed the field into a beautiful campus with its playing fountain, with its trees and shrubs and flowers. It has given her the Administration Building, the Science Hall, the Dormitories and Gymnasium, and above all, her students. They have come to her with high hopes and unselfish desires to fit themselves for a larger service to their Master. While this spirit directs, no task will be too great, and no problem too difficult. Under His guidance larger groups will come to her in the future; more stately halls will rise on her campus and a still greater and better Goshen College will come tomorrow.

—The President.

Supervised Teaching

Supervised teaching is one of the most important factors in the state's teacher training program. It is imperative that a high standard be maintained in this subject, if the student teacher is to derive the valuable training during his apprenticeship in the classroom, that he has a right to expect. The effectiveness of such a course depends almost wholly upon the critic teacher. The college must see to it that the student has thoroughly mastered the content of the subjects he plans to teach. But with the critic teacher lies the task of extending the right kind of technical and professional guidance to the student teacher. This is not a small task. It requires on the part of the critic teacher an acquaintance with that body of principles and skills which are connected with the training of teachers. Native ability, good personality and aptitude for teaching, while essential, do not complete the equipment of the critic teacher. He must also bring to his task a grasp of scientific procedure in the art of training teachers.

Goshen College considers itself fortunate in securing the co-operation of the Goshen High School in carrying forward its high school teacher training program. The college greatly appreciates the splendid spirit in which both Superintendent Foreman and Principal Walter have entered into this work. They have placed at our disposal a group of efficient, well qualified critic teachers. During the present year a number of students taught high school courses in English, Mathematics and Science under the supervision of Miss Deniston, Mr. Schenck and Mr. Bryner. In each instance we are assured by the director of our teacher training program, Professor Hohn, that the student teacher has received valuable training for his future work.

—Noah Oyer.

History

Like the wise men of old, we have come from afar. We came together to go on a quest—a kingly quest. They sought for the King of Truth, and we, too. They journeyed across burning deserts; we have traveled over sands of knowledge and mountains of difficulty, being often weary, yet ever following our star. But, there were oases, too. Many times we rested in the cool of the palms by the bubbling spring. Here we wove flowery chains of friendship to hang as garlands on our souls. Here we were strengthened, enlarged, and purified by looking into each other's eyes.

Our star has paused. Now we have arrived. They of old in Bethlehem laid their gifts at the feet of the King. Ours we lay at the feet of Humanity, knowing that inasmuch as we do it for the souls of men, we do it for Him, the King of Kings.

We came together from the North, South, East and West. Among us are the sons of the prairies of Kansas and Iowa. One has left the blue mountains of Colorado, and another the green hills of Missouri. From the picturesque valleys and hills of Virginia and Pennsylvania others have come. One left behind the snows of Canada and another the land of sunshine and flowers in Mississippi. A goodly number belong to the three mighty states of Ohio, Indiana, and Illinois.

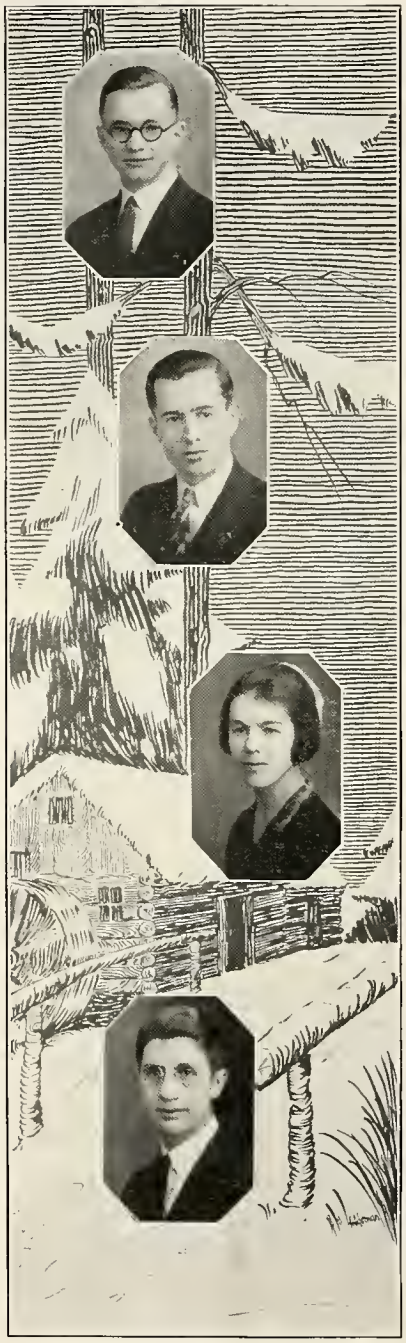
We came from afar, yet with one purpose we were possessed. Along the road we have sought culture for service—we have sought to beautify our gifts that they might be more acceptable to Humanity.

We shall separate. Yet one purpose will motivate us—to give, and give, and give. For we have learned that only as we give, shall it be given unto us to give.

Van Dyke told of another wise man, who was delayed, who stopped to minister to all the sick, the distressed, the persecuted, and therefore arrived not as soon. There are other wise men behind us, too. We beckon to them to follow on, though the way may be long, though other tasks may seem to hinder their progress. We too have been stopped by seeming failures, and have been asked to pause to minister in what seemed small deeds at the time. Yet we have arrived, and joy is ours; for our gifts have been accepted and we have been given more to give. We set out upon a new journey, yet not together.

—Esther Brunk

(The pledges for the Senior Class gift to the Endowment Fund totaled $2,125.00 April first.)



SENIORS

CLIFFORD MARTIN — Goshen, Indiana

Majors—Physical Science, Mathematics

Adelphian; Treasurer Y. P. C. A. '26, '27; Debating team '25, '26, '27; President Adelphian Literary Society '26; Business Manager of Maple Leaf '26; Editor Maple Leaf '27; President Senior Class '27.

Major—Bible

Aurora; Volunteer Band; Christian Worker's Band; Philharmonic Chorus.
Mr. Vogt took three years of College work at Hesston College, Kansas.

LEWIS S. WEBER — Toronto, Canada

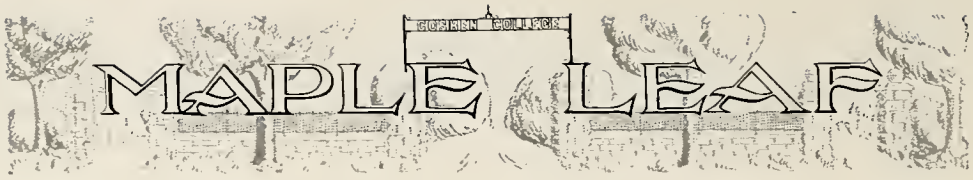
Adelphian.

College Freshman in Goshen College '21. Student in Toronto Bible College for one year. Theological Student in McMaster University, Toronto, for three years. Mr. Weber returns to Goshen College to receive his A. B. Degree with the class of '27.

FLORENCE HAWKS — Goshen, Indiana

Major—History

(Not on Picture. Did not take degree.)



IN A LINE OR TWO

ESTHER BRUNK—A conscientious student, a keen observer, a devoted Christian and a worthy friend. She is perfectly frank in all her opinions, eager for new ideas, and appreciative of distinct individuality. Story-writing is one of Esther's exceptional talents.

TILLMAN ERB—Spent only his Senior year with us. From our first acquaintance we have appreciated his pleasant personality as well as his versatility in college life. He has contributed richly toward the talent of our class—a singer, debater, public speaker, athlete, and common friend.

AMANDA FREY—An active, enthusiastic young woman who knows how to get things done. She is open-hearted, candid and sincere toward all. Her interests are varied. She impresses one as being able to find the enjoyment there is in life.

CHARLES FRICKE—A song, a smile, and a general feeling of good-will to all mankind characterize Charles. He is eager, impulsive, active and resourceful—always ready to do his part. Deep convictions determine his life decisions.

ELIZABETH GISH—Understanding and sympathetic, she has many friends. A lover of the beautiful, she inspires others to a love of all that is best, highest and noblest in life. English is the particular field of her interest.

JOHN HABECKER—John is quiet, kind-hearted, serious and fond of hard work. He is quite frank in expressing his opinions yet withal he is charitable toward others. Science claims his deepest interests.

FLORENCE HAWKS—Florence is a pleasant, sociable young lady full of buoyancy and mirth. Her presence makes one as cheerful as does sunshine after a cloudy day. In the class-room she does good, original thinking, particularly in English.

DELMAR HERSHBERGER—An active, earnest searcher after the final and ultimate things in life. His abilities lie in different fields: science, journalism, debate and music. Although somewhat dignified he has been a congenial student on the campus.

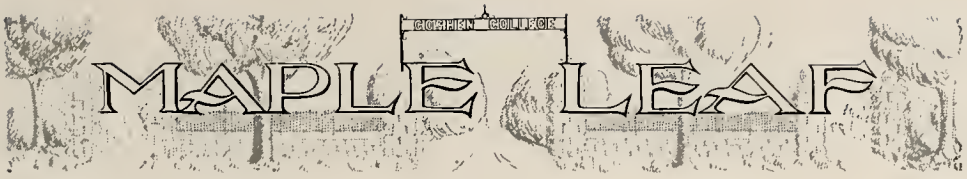
QUINTUS LEATHERMAN—A man of sterling Christian character. Although he has been with us for only one year his life has impressed us because of its sincere conviction, congeniality and optimism. We expect Quintus to become a capable teacher of History.

BEULAH LOUCKS—If you want Beulah, look for her in the reading room. You will find her busily engaged with one of Cicero's essays or Browning's poems. She is tall and graceful, quiet in spirit and gentle in temper.

CATHERINE MARTIN—She is modest and demure yet positive and graceful in her social contacts. Her smile and sparkling eyes remind one of the sunshine. There is a rich generosity, friendliness and sweetness in her disposition which make friends for her wherever she goes.

CLIFFORD MARTIN—A man of pleasing manner, a gentleman, a thorough student, a leader of unusual abilities. He is well known and respected by all on the campus. Mathematics is one of his particular interests; so is science.

HUBERT MILLER—A fine, optimistic student and friend. Although somewhat retreating in social contacts, Mr. Miller has made many days brighter by his sunny smile.



His interest lies in the field of history. Careful notebook work has distinguished his work in class.

WALLACE MILLER—Short in stature but long in accomplishments. Careful yet progressive in his attitudes he has proved himself a man of rare judgment and intellectual ability. His personality is pleasing.

DORA SHANTZ—Dora is always in demand. She is never too busy to give of her time to others. In class-room work she is cheerful, industrious and capable. Her life work lies in the field of Christian service.

LULU SMITH—Aggressive and energetic, Lu usually accomplishes whatever she attempts to do. She is not afraid to tackle something because it is new or difficult. Though she works hard she can find time for fun at the right time.

ELVIN SNYDER—A peculiar combination of good humor, fun, common sense and seriousness. He is impulsive and eager for activity. His life purposes are formed and he works toward their fulfillment with eagerness. He has shown real ability as chorister and public speaker in religious work.

WALDO STALTER—A man of keen intellect, determined mind and dignified manner. There is positiveness and authority in whatever he says. His talent is exceedingly versatile. We expect great things of him.

WILLIAM SWARTZENDRUBER—Somewhat quiet and retiring in disposition. Whether it be in the classroom or out one finds Bill an affable instructor and student. He knows what he wants and knows how to get it. Biology is his particular field.

MILTON VOGT—This "vote" (Vogt) counts everywhere. Usually accurate in judgment, speech and action, he does well whatever he undertakes. Few Seniors have shown a nobler spirit of good, common friendliness.

JONATHAN YODER—Jonathan is not satisfied with a meager knowledge of things; he believes in going to rock bottom. His method of thought is logical and mathematical. Courtesy and consideration for others make him a fine friend.

MAURICE YODER—A towering figure. Serious mindedness, clearness of thought and deliberation in speech give individuality to this member of our class. Loyalty to the cause of the Master is the predominant force in his life. He is a minister of the Gospel.

C. RUTH YODER—The artist of our class. There is gentleness and refinement in her very soul. Though somewhat retiring, perhaps, she is ever ready to assist in a worthy cause. Ruth is a conscientious student of real ability and noble character.

NELLIE ZOOK—Modesty, reservedness and congeniality characterize this young lady from Missouri. In this one year she has won her place among us by her fine spirit of cooperation. Nellie is of a sunny disposition and possesses the secret of happy daily living.

LEWIS S. WEBER—A Canadian with international interests, especially in a missionary sense. His unusual and attractive success as Superintendent of Toronto Mission and his amiable self-sacrificing personality, his good sense and wise action make a large place for him in Christian service.

COMMENCEMENT WEEK CALENDAR

Friday June 10 to Wednesday June 15, 1927

Friday, June 10

Academy Senior Program ..... 8:00 P. M.

Saturday, June 11

Musical Program by College Choruses ..... 8:00 P. M.

Sunday, June 12

Missionary Sermon ..... 11:00 A. M.
Paul Erb

Missionary Program ..... 2:00 P. M.
Speakers: Ralph Smucker, L. S. Weber

Baccalaureate Sermon ..... 8:00 P. M.
Noah Oyer, Dean of Goshen College

Monday, June 13

Senior Class Program

On Campus — 7:00 P. M.

Emblem Oration ..... Clifford Martin
Gift Oration ..... Jonathan Yoder

In Assembly — 8:00 P. M.

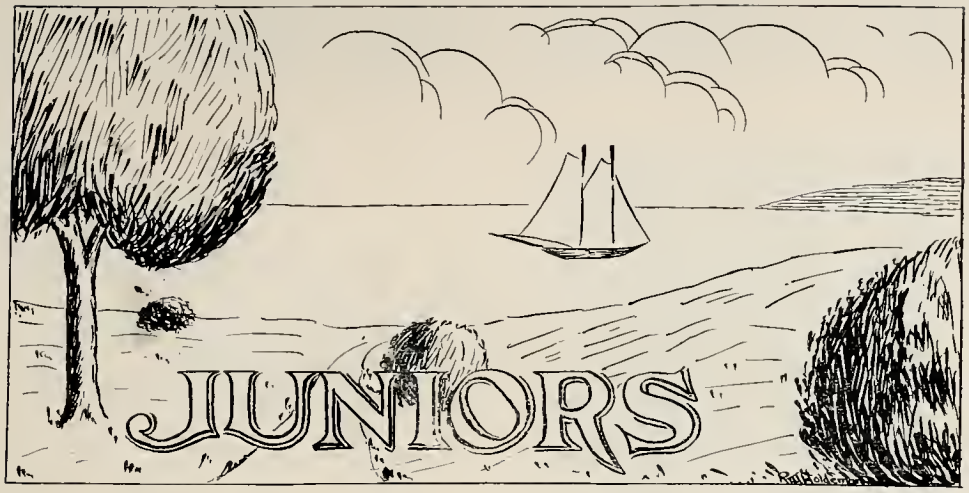
Alumni Banquet ..... 6:00 P. M.

Wednesday, June 15

Final Chapel and Devotional Meeting ..... 10:00 A. M.
College Luncheon ..... 1:00 P. M.
Commencement Address ..... 8:00 P. M.

Dr. Robert P. Wilder, General Secretary, Student Volunteer Movement for Foreign Missions



History

When progress is being made, it can be expected that new problems will present themselves. These problems are often a challenge to us, and are the means of building character. We, the class of '28, have found out through the experience of three years in College that if we are to succeed in life. we must work.

"We are not here to play, to dream, to drift;
We have hard work to do and loads to lift;
Shun not the struggle; face it; 'tis God's gift."

We feel that we have been big enough, in number as well as every other way, to show that we are able to meet these problems. In fact, being able to reach the Junior year proves this.

Our interests have been varied. We have taken an active part in every activity of the College. In our first year we took the lead in athletics. We were not quite so successful the second year, but with the Junior year we are holding our place. We were defeated in the debates the first two years. However, we came out in our Junior year with a debating team which was able to win the judges' decision over the strong senior team. We also got recognition in the discussion contest. The Juniors are well represented in the College choruses.

The class of '28 might be termed a "provincial class". We come from Iowa, Illinois, Michigan, Ohio and Indiana. We feel, however, that we are very much like other people, even if we do not come from every part of the globe. Our interests show that we are like other people, because some of us are interested in agriculture, some in teaching, some in business, some in housekeeping, and others are preparing to spend their lives in the interest of the Church.

The Junior Class has played the game for three years and is looking forward to our final year. As we enter our Senior year, we hope the experiences which it has for us will be the means of helping us to build strong Christian characters, and by the time we realize the culmination of our College career we will be able to meet life's problems even beyond our expectations.

—Amasa Kauffman.

JUNIORS

EZRA CAMP, *President* Roanoke, Illinois

Is always in a hurry but usually late. His keen mathematical mind and good sense of logic rank him high in scholarship.

SAMUEL YODER, *V. President* Goshen, Ind.

A little John Alden loved and admired by the boys as well. His intelligence makes possible his minimum amount of study, yet his ideals are scholarly.

VERNA GRABER, *Secretary* Noble, Iowa

Sincere, amiable and helpful. Verna represents those finer qualities of womanhood which all must admire.

MERRILL IVENS, *Treasurer* Bristol, Ind.

"Squirrelly" is the most Collegiate looking fellow in College. He is a mixture of keen industry and subtle humor.

JUNIORS

AMASA KAUFFMAN — Goshen, Indiana

The only bachelor in the Junior Class—still hopeful. Amasa's interests lie in the rural community. He is an ardent advocate of the "back to the farm" movement.

RALPH FISHER — Kalona, Iowa

Typically Collegiate, always carrying books and never using them:

"I am the master of my fate,
I am the captain of my soul."

TILMAN SMITH — Ashley, Michigan

A peculiar combination of humor and seriousness compounded in such a way that he is a great success and congenial friend.

WILLARD SMITH — Ashley, Michigan

The Big Brother of the Juniors. Although a serious-minded historian, he always has plenty of time for fun.

JUNIORS

EDWIN HERNER — Goshen, Indiana

"Hold on boys, the Chrysler's up to seventy." He has intellectual ability and generosity which win and hold friends.

CHAUNCEY SMUCKER — West Liberty, Ohio

"Smokey" is noted for dependability and class loyalty. He is the Junior rooter.

WILMA WELTY — Nappanee, Indiana

Always busy, Wilma is one of those frank personalities which we are not apt to understand. She has a characteristic droll sense of humor which is not always readily perceived.

MILTON SMITH — Ashley, Michigan

A man with a message for the world. "Fat" can make more friends in five minutes than the rest of us can in five years.

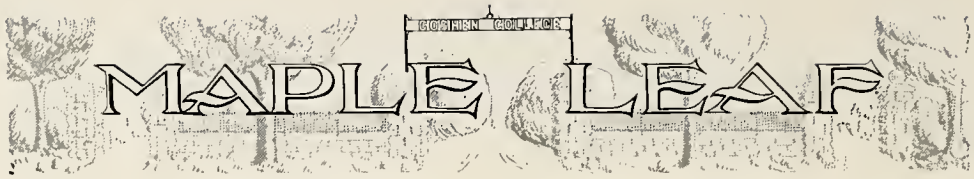
JUNIORS

JAY EBERLY — Dalton, Ohio

Absence of hurry indicates superior quality. Married and happy. His integrity and industry will cause him to win where others fail.

HUBERT HAHN — Goshen, Indiana

A Junior "red top" of fine capabilities. His love of theology and philosophy make him indispensable to humanity.



JOLLY JUNIORS

Oh, we Juniors are a men's class,
A flock of fellows fine,
A small, but bright and brainy mass
Of mighty masculine.

For fairer sex, we must allow,
In number we're outclassed,
But two (guess who) of these we'll vow,
Have beauty unsurpassed.

Some "red tops", we do not deplore
A bright, brilliant quartette,
Their age?—a score, it might be more,
But it hardly would be more yet.

A bachelor and a married man,
And a man who drives a Chrysler,
Another man affords a can;
That's what we all would buy, sir.

A speaker who debates each year,
His arguments are clarion,
And one, I fear, who, tho he's here,
His heart resides in Marion.

The smartest one is full of fun,
And very athletic.
The last, a fake, for pity sake,
Tried twice to prove poetic.

So here, let's cheer for Juniors queer,
For Juniors small and great,
For Juniors seer, for Juniors dear,
"Hurrah, Class '28!"

—Samuel Yoder.

History

It came to pass in September on the 18th day, 1925, that a marvelous thing happened in the history of Goshen College. Sixty-five Freshmen entered its portals of learning and proceeded to make every one sit up and take notice. The second year of our College course brought back to us thirty members of the preceding year. Although our number was cut to half the class spirit and enthusiasm still remains.

Nothing is more characteristic of our class than the daring, resolute and courageous manner with which we enter all enterprises requiring skill and labor. We simply refer to a few of our victories thus far: in our Freshman year our boys defeated the Sophomores in the Inter-class debate; the women's debating team triumphed over the Juniors; our representative took first place in the Discussion contest; and second place in the Peace Contest. One of our big victories was taking the championship of the basket ball tournament. Our Sophomore year has been just as eventful, such as the winning of the men's Freshman vs. Sophomore debate, by a unanimous vote of the judges. The women's debating team defeated the Freshman women after a heated argumentation. Once more our efficient basket ball team took the tournament from the Seniors with the score 21-17, thus giving us the Silver Cup.

There is another side to our existence—the social side. On October 30, we enjoyed a Hallowe'en party including a taffy pull. The next important date was the bob sled ride out to the home of Ray Johns. Snowdrifts along the way furnished excitement for certain members of the party. On March 16, a "wienie roast" was held in Shoup's Woods, near the College.

The class of '29 has moved gamely on through two turbulent years. We have left a record which any class might be proud of. Mistakes have been made but always honest ones. We sincerely hope that our two years of learning at this institution will not only be beneficial to ourselves, but that we may have left our impress for the better of Goshen College.

—Esther Leininger.

History

We the Class of '30 have come to Goshen College from six different states of the United States and from the Indian section of the British Empire. Among our number are school teachers, financiers (we have two representatives in the Business Office), a preacher, a poet, a scientist, and an artist. The rest of us are just plain learners hoping to be able to accomplish great things some day with the plain learning we are acquiring now. All of us—thirty-seven strong—have come to Goshen College with a common aim: we want to know more in order to serve better.

Our first social evening together was in the nature of a backwards party. And a delightful backwards time we had! When snowy weather made sleighing a joy, we Freshmen went for a jolly bob sled ride into the country. After our first experience with college examinations, we took an evening's vacation and entertained ourselves at a Valentine party and taffy pull in the Home Economics Rooms in Science Hall.

With our inspirational class sponsor, Professor Hohn, we have taken a course in College Life. In a very helpful way we have been shown how to adjust ourselves to a college environment. It has been said that "some are born great, some achieve greatness, and some have greatness thrust upon them". Since to the majority of our Freshmen greatness will probably come only by achievement and since our means of achievement at the present is study, the course has been very beneficial in teaching us how to study and work to the best advantage.

Coming to Goshen as Freshmen we have learned many things. We have discovered that college life means not only preparation for better living later on but it also means actual daily living now, in a small community not unlike the great outside world. By the time we have had four years of experience here, perhaps we shall know, in a small measure at least, how to take our place among our neighbors in the larger community of the world. At any rate we are going to try to learn how and we will not forget to "Climb though the rocks be rugged".

—Mary Royer.

Martha Yoder	"Oh Kid"	Wooster, Ohio

FRESHMEN

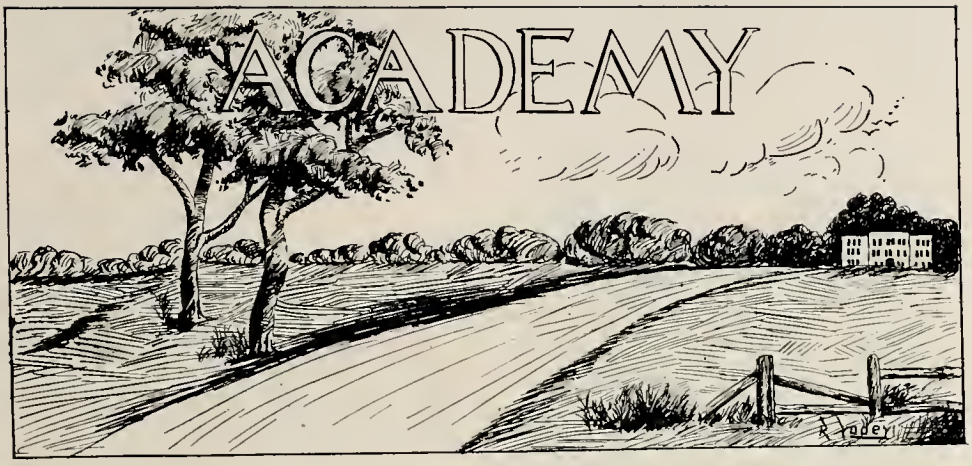
The class of "thirty" comes in view,
  A jolly bunch of sports;
But everything that we can do
  Turns into bad reports.

We're always doing something wrong,
  It simply is our fate
To stay in bed a bit too long,
  Then get to breakfast late.

Our lessons first seemed difficult;
  They looked so very long.
The reason for our sad result—
  We all went at it wrong.

We then would say, "I don't know how,"
  Or grumble at our Trig;
We've learned to do it different now—
  It's just get down and dig.

—Earl Byler.



The Academy

The Academy exists primarily for the purpose of preparing students for college. Students in the Academy may usually be put in one of two classes. The one group represents those students who come from homes in which the parents are especially interested in the religious welfare of their children. They want their children to be directed by men and women who know God and believe in the principles of the Church. The other group represents those young people, who, by force of circumstances or for some other reason, did not take their academic work at the usual age.

The Academy offers many advantages to students which are not available in the regular high school. They may use any of the equipment found in the College laboratories. Again, they have free use of the library. They have the privilege of entering any of the extra curricular activities such as chorus, Bible Study classes, and derive inestimable value from lecture courses, chapel talks, and special meetings. The atmosphere radiated by the Y. P. C. A. has a great influence on the moral and religious phases of their young lives.

Formerly one of the regular members of the College faculty was also supervisor of the Academy, and many of the College teachers taught high school branches. This arrangement has been rather unsatisfactory and for several years it has been keenly felt that these two groups should be completely separate. During the past school year plans have been made whereby this change can be made. Under this new plan the Academy shall have its own principal and the teachers shall not teach any college subjects. Instead of having Academy students use the reading room for studying, arrangements have been made to have a separate assembly room with supervised study for the Academy. This plan shall go into effect when the new school year of 1927-28 begins.

—Elsie Mae Landis.

SENIORS

ABRAM HALLMAN Guernsey, Saskatchewan

President

Abram, our class president, has served his class very well with his "ability to do". As a student he is very conscientious, never satisfied with anything short of the best.

PAUL SLABAUGH Goshen, Indiana

Vice President

The one great aim of Paul's life is to do something worth while. He has a profound love of the good and beautiful. Paul is an indispensable asset to the Senior Class.

ESTHER WIDMER Wayland, Iowa

Secretary

This maiden is from the Hawkeye state. She is studious, and possesses that modesty which suggests a rare and beautiful character.

ELIZABETH GRABER Noble, Iowa

Treasurer

Positive in her attitudes, straight forward and frank, yet sufficiently sociable and generous to have many friends. Elizabeth enjoys a good time, but does not allow that to keep her from being a good student.

SENIORS

DAVID LEICHTY — Noble, Iowa

He's an athlete through and through
He's one you can't surpass.
In business, too, he'll make his mark,
We're glad he is in our class

LESTER WENGER — Lyman, Mississippi

Conscientious in all he undertakes, Lester is one of the most thorough members of our class. Walking is his chief recreation. He is usually found with a book.

RAYMOND BOOK — Sterling, Illinois

Raymond is blessed with an exceptional capacity for humor in every situation. Consequently he is always cheerful and is able to chase away the blues even though they are of the darkest indigo shade.

FLOYD METZLER — Nappanee, Indiana

"Metz" is equipped with a natural aptitude for imbibing knowledge. Science holds wonders for this Senior. He has learned to take life seriously and yet has a droll sense of humor.

MYRON YODER — Goshen, Indiana

Big in stature, big in mind, and big in heart; of such is the makeup of Myron. He is a good sport and generally succeeds in putting a thing through when he begins it.

History

And it came to pass that there gathered a wandering tribe which called itself the tribe of Sophomores, and it pitched its tents in the land of Goshen. Now there were none dwelling in the land to which it had come for all who had been wont to dwell there had gone out into other lands.

This tribe of Sophomores had come from the plains of Indiana, and, although the tribe was small, it waxed strong and accomplished great things and many of the neighboring tribes stood in awe of it.

And in the days when the sun soon sought his rest this tribe of Sophomores, mighty in wisdom, joined itself unto the tribe of Freshmen to hold a feast of thanksgiving. For many were the trials they had passed through.

As days wore on the tribe grew smaller until for long months one tent stood alone.

And it came to pass that eight new tents were pitched in the land of Goshen, in the portion which the tribe of Sophomores had chosen. And this tribe, because of its increased wisdom, took for itself a new name and it was called the tribe of Juniors. And it chose as its chief Harod of the House of Bachman.

And the tribe of Juniors made a feast and to this feast came their sister tribe, the Seniors, and all waxed merry and tarried long.

And the time came when the members of the Junior tribe went on a long journey and three did not return to the land of Goshen, but four new tents were pitched. And because of the long years and the mighty wisdom of the tribe the ruling tribe of Goshen spoke to them thus, "No longer shalt thou be called Juniors, but Seniors".

And Abram, of the House of Hallman, ruled the tribe wisely and well.

Peaceful days followed each other, great feasts were held, much merriment was made, and words of great wisdom were uttered. Then the tribe grew mighty and went forth to conquer new lands.

To Classes

Unvexed as yet with cares of College life
These youthful students find the hastening hours
All full of vivid beauty, and the lure
Of stimulating, unawakened powers.
Academy, you've lived that counsel true:
"Do, as you would have others do to you".

One milestone marks the progress of a band
Of ardent Freshmen; new and untried ways
Stretch on before them, brimming with the wine
Of wondrous moments, and more wondrous days.
Lose not your flaming eagerness, your zeal—
Dream on, but make your dreaming visions real!

Across the bridge that spans the second year
These talented and splendid students pass;
Ambition whets the aspirations clear
For they are stars in sports, debate, or class.
March on, O Sophomores, to future fame!
On to your goal, attaining your high aim!

Renowned for culture and ability
Is this distinguished group of Junior men;
Three golden years have brought their sun and shade;
Alas that there should be but ladies twain;
Work on, and leave the future years to fate.
We wish you well, dear class of '28.

When four swift striving years have slipped away
Into a mem'ried past, then comes the time
Of separation, parting, and farewell
That ring in saddened hearts a softened chime;
And we shall miss the Seniors from their place
And feel the loss of each remembered face.

—Sylvia Hostetler.

Departments

With character which is symbolic of Goshen College, stands the Science Hall as an expression of the greater ambitions of our administration with reference to departmental development.

GOSHEN COLLEGE
MAPLE LEAF

The Bible School

Goshen College reserves a large place in its curriculum for courses in Bible. This department maintains the policy of the original promoters of the College, who were interested in training our young people in Bible and in helping them to find a sound doctrinal foundation. The regular curriculum of the Bible School covers two years, and the requirements for entering are identical with the requirements for college entrance. Upon completion of the two years of work a certificate is issued to the student.

The Bible School, however, functions largely as a department of the Liberal Arts College. The department is open to students who wish to choose Bible as their major subject. In fact few students complete the two year curriculum, while numbers of the students who are pursuing the curriculum leading to the Bachelor of Arts degree, choose to major in Bible. The department is also open to students who major in other departments and wish to choose some of their electives from the Bible courses.

In recent years the Bible School has been offering a limited number of graduate courses for students who plan to enter the regular Theological Seminary.

In the organization of the curriculum of the Bible School especial emphasis is placed on the English Bible courses. Numerous courses are offered both in Old and New Testament study which are designed to acquaint the student with the life and message of the Bible. The Bible is presented to the student as the Word of God, and as a means of deepening spiritual life. Its message is treated as the supreme message for our day.

Provision is also made for the study of the original languages, of the Old and New Testaments. Students who major in Bible are urged to acquire a fair reading knowledge of the New Testament in Greek. In this way the student is enabled to make use of the best critical and exegetical treatises on the New Testament. Ample provision is also made for the study of Doctrinal Theology, Practical Theology, and Church History. Each of these has a specific value. It is quite essential that the Christian Worker should know what and why he believes, and that he should recognize the weakness of doubt and negation, and the triumph of firm conviction. The attempt is made all along the way, and in the practical department in particular, to enable the student to correlate his Biblical training with the work he will meet out in active service.

A number of Elementary Bible courses are also offered for the students of the Academy. Thus it is seen that the range of the Bible School curriculum extends from the high school to graduate courses.

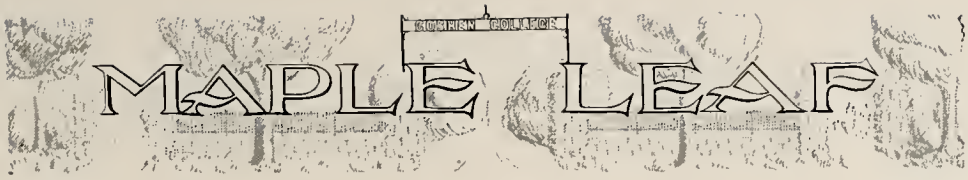
—Noah Oyer.

Minister's Week

FEBRUARY 15 - 18, 1927

One of the special features of the Special Bible Term this year was a program of courses offered to the ministers of our constituency. Lectures and discussion courses were conducted on such subjects as, Sermon Preparation, various phases of the Work of the Pastor, The Minister and his relation to the various Church activities, and Studies in the Word—a devotional Bible study. Under the capable leadership of such men as J. L. Stauffer, Harrisonburg, Va., J. A. Ressler, Scottdale, Pa., S. M. Kanagy, Chicago, and C. F. Derstine, Kitchener, Ontario, this project proved to be highly instructive and inspirational. The courses were attended largely by the ministry of the nearby churches in Indiana, with numbers also from Illinois and Ohio.

—Noah Oyer.



The Christian Life Conference

One of the great events, if not the greatest, of the past year was the Christian Life Conference held at the College from February 18th to 20th. A wide representation of talent was made possible because a number of important church committees were scheduled to meet at the College at that time.

One of the features that made the Conference so valuable was the contacts made between Church leaders and students. Many were pleased to learn that the Church is back of the school interests. If our present policy of making the entire Church responsible for the educational work is continued, we can readily see that one of the best means of fusing and correlating the interests of the student with those of the Church at large is to have the two groups meet each other in some large enterprise in which each one has an interest. This was a result of the Conference.

From the angle of the young people we felt a daring challenge in the confidence that was placed in us by many of our older brethren. "If our young people know the truth, they will hold to it. We did, they will also." This, and other statements represent the position of our "fathers" in the faith. The younger generation did not take this to be a coat of sugar on a lump of bitterness. But they saw the stupendous issue plus the fact that they are going to determine its solution, not in a day, but in the years to come. Loyalty was called for in this challenge, but no one felt that it should be a mere sentiment of devotion expressed in glowing words only to be forgotten when the last benediction had been spoken.

It was clear that to many our cause is not based on the fancies of the dreamer, but that it is interwoven with principles that make it "humanly unmakeable" and "humanly unbreakable". The persecutions of Reformation days tried "as by fire" those who espoused the cause of Anabaptism. Thousands were burned at the stake, beheaded, placed on racks, bound hand and foot, then rowed to midstream and laid in a watery grave. Only the resurrection morn can gather the fragments of those hellish days which cling to us now in memory. Meetings such as the Conference can become mighty agents in moulding a common sentiment if they forcefully present the heritage of memories with which our past is interwoven. But this is not the greatest task. The problem lies in creating a common desire to propagate those memories, which means nothing less than to propagate the principles which produced them. This done and unity is assured.

A student was heard to remark that he was very glad to have been here because he is just beginning to see that our principles are bigger than he thought. His home community is rife with division centered in personal prejudice, family ties, and the rancor of strife. It was his thought that there can be little assurance of the future. But past experiences have cleared the horizon and a new vision is slowly unfolding a great cause that has stood the acid test of four hundred years. Surely it is not a delusion.

There were at least eleven hundred people present at the various sessions of the Conference. We hope the future will bring continued blessings in the form of another Christian Life Conference.

—I. E. Burkhart.

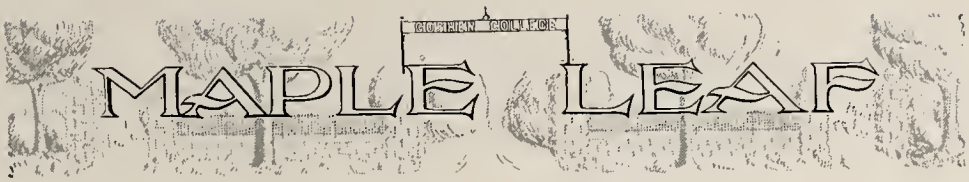
CLASS ROLL

John Aeschliman ------ Pettisville, O.
Blanche Brenneman ------- Elida, O.
Mary Gingerich ------- Parnell, Iowa
Edna Gingerich ------- Parnell, Iowa
Esther Good ---------- Hopedale, Ill.
Viola Good -------- Petersburg, Ont.
Roy Hartzler -------- Wakarusa, Ind.
Barbara Hochstetler----Millersb'g, O.
Martha Hooley -------- Goshen, Ind.
Dora Hostetler ----- Midd'ebury, Ind.
Gladys King ------- Fort Wayne, Ind.
Paul Kortemeier ------- Freeport, Ill.
Rowena Leedy ---------- Lima, Ohio
Percy Miller ------ Shipshewana, Ind.
Esther Miller ----- Shipshewana, Ind.
Walter Roth ---------- Elmira, O.
Irene Rychener -------- Archbold, O.
Tobe Schrock ---------- Goshen, Ind.
Clara Short ---------- Archbold, O.
Dora Short ---------- Archbold, O.
Luella Short ---------- Archbold, O.
Lucinda Short ---------- Archbold, O.
Viola Short ---------- Archbold, O.
Edward Snyder -------- Preston, Ont.
Alta Steiner ---------- Comins, Mich.
Gordon Stichter ----- Wakarusa, Ind.
Ora Yoder ------- Shipshewana, Ind.
Ordo Yoder ---------- Goshen, Ind.
David Yontz ---------- Goshen, Ind.



Special Bible Term

The Special Bible Term, as a part of the Bible Department of Goshen College, is of prime importance in carrying out the purpose for which the college was founded. For a number of years it has been a feature of the institution which has been of great help to many young people, Sunday School workers, and ministers who are not privileged to spend an entire school year with us. The curriculum outlined for the group aims to provide such instruction in Bible and related subjects that those who complete it may be better prepared to serve the Church as Bible teachers, missionaries, or lay-workers. It aims to deepen the individual's spiritual life as well as to prepare him for increased usefulness in the Church.

During the winter of 1926-27 twenty-eight young people took advantage of this opportunity and registered for the course which extended this year from January fourth until February sixteenth. In the group Ohio and Indiana were equally represented, there being eleven from each state. Besides these there were two from Iowa, two from Illinois, one from Michigan and one from Ontario. Regardless of the variations in locality and experiences of these young people it was interesting to notice how readily they became acquainted with and attached to each other. The unanimous expression at the close of the term was that the time had passed much too quickly. Each one left us with the firm assurance that the time had been profitably spent.

This year Bro. S. M. Kanagy, Superintendent of the Chicago Home Mission, acted as special instructor. His services were much appreciated. Although his pressing duties in Chicago kept him very busy, he found it possible to remain with us from Tuesday evening until Friday noon, at which time he returned home for the week end. The courses offered by him were as follows: Sunday School Methods, Church History, Book Study, and Personal Evangelism. The work of the last course received a practical touch by way of visitation work done in the community by members of the class. Other instructors were President Yoder, Dean Oyer, C. L. Graber, Professor Hartzler, and Mrs. Miller. These offered courses in Bible Doctrine, History of the Early Church, Missions, Life and Letters of Peter, Bible Geography, Music, and Public Speaking.

As we think back over the experiences of these six short weeks we cannot help but notice very definite ways in which we have been strengthened and encouraged. Our only regret was that others were not permitted to enjoy them also. However, we look forward to the time when all who were here will return and bring others with them.

—Gladys Loucks.

Summer School

Those attending Goshen College during the summer 1926 were largely college students but provisions were also made for a few who wanted Academy work. Although the student body was not large courses were arranged to meet the requirements of every student. Nine hours was the average work carried by each student. All class recitations were conducted in the morning, leaving the entire afternoon free for study.

Early in the term the "Goshen College Summer School Association" was organized to care for all student activities. The constitution adopted called for directors to be appointed by the presidents of the following departments: religious, literary, social, and athletic. Irvin Burkhart had charge of the religious department. He arranged the prayer meetings that were held each week either in the reception room of Kulp Hall or on the campus. The entire student body attended these meetings.

The literary department under the management of Catherine Martin arranged for a program every two weeks. To add interest one of these was public and another was given at the home of President Yoder.

Elvin Snyder directed the social affairs. A heavy rain interfered with the first social by putting out the fire over which the wieners were to be roasted. The picnic at Winona Lake on the fifth of July was quite successful and made the only holiday of the summer a jolly day. The girls on the last evening entertained the boys at a "Bad Luck" social in the reception room.

The athletic activity was under the direction of Tillman Erb. Tennis was the most popular of the sports. A few baseball games were played among the students, the one played by the girls being perhaps the most interesting. The summer was a success both in work and recreation.

—Dula Roth.

Men's Chorus

Full of energy and enthusiasm and ready to accept the challenge of hard work and faithful practice in the preparation of a well selected repertoire, the Men's Chorus has become one of the most active organizations of Goshen College. No individual effort was spared, no personal sacrifice was withheld in the endeavor of these sixteen young men to bring to the public a series of concerts which were creditable to the institution.

During the Easter vacation a tour was made of Illinois. In spite of much rain and mud the programs were well attended. Besides this, the chorus was in demand on special occasions in neighboring towns and churches. Personal letters and published comments have been an incentive to further activity.

The chorus had two programs, a secular and a sacred, which were given on the tour. These programs were composed of numbers from leading composers, such as, Mendelssohn, Handel, Sullivan, Gericke, Verdi, and Dvorak.

The personnel of the chorus is as follows: first tenor, Tillman Erb, Edgar Frey, Floyd Martin and Samuel Yoder; second tenor, Paul Horsch, Tilman Smith, Elvin Snyder and Amasa Kauffman; first bass, Howard Musselman, John Bender, Milton Smith and Ezra Camp; second bass, LeRoy Hostetler, Joseph Buzzard Quintus Leatherman, Cecil Bender, and Delmar Hershberger.

The officers are: Director, Prof. B. F. Hartzler; President, Tillman Erb; Business Manager, Milton Smith; Secretary, Tilman Smith; Pianist, Cecil Bender.

Season's engagements: Methodist Church, Goshen, April 4; Wakarusa High School, April 8; WLS, radio station, Chicago, April 13; Home Mission, Chicago, April 13; Freeport Congregation, Freeport, Ill., April 14; Science Ridge Congregation, Sterling, Ill., April 15; Tiskilwa, Ill., April 16; Roanoke Congregation, Roanoke, Ill., April 17; Metamora Congregation, Metamora, Ill., April 17; Waldo Congregation, Flanagan, Ill., April 18; East Bend Congregation, Fisher, Ill., April 19; Kokomo Congregation, Kokomo, Ind., April 20; Christian Church, Goshen, May 3; Goshen College, June 14; Walnut Creek, O., June 3; North Lima, O., June 4; Louisville, O., June 5; Smithville, O. June 5.

—Beulah Smith.

A Capella Chorus

The sympathetic response to an expression from the soul of a God-inspired composer, the feeling of an answering vibration which lifts the spirit from the sordid to the sublime—such an appreciation is indeed worthy of attainment. Music, like all that is fine and beautiful, holds limitless possibilities which for the earnest seeker cannot but result in a deepened understanding of human nature. It is a refining influence, subtle, but none the less sure.

With a serious purpose, such as this, the A Cappella chorus has been studying during the year. The interest has been sufficient for excellent attendance and the study of an especially high grade of music. The ideals and enthusiasm of the director together with the persistent efforts of the members, enabled the chorus to present programs which were well received. Besides appearing on special occasions at home, invitations were accepted to neighboring churches and communities.

Selections in the repertoire of the organization verify its high standard. The rendition of Bach's "Sanctus", from the "Mass in B Minor" gives evidence of an effort to interpret one of the classics of sacred music.

The combined Men's and Ladies Choruses constitute the personnel of the organization.

The officers are: Director, Prof. B. F. Hartzler; President, Tillman Erb; Secretary-Treasurer, Lois Lapp; Pianist, Cecil Bender.

Season's engagements: Goshen College, Dec. 21; Congregational church, Scott, Ind., April 1; Prairie St. Church, Elkhart, Ind., April 10; Goshen College, April 12; Mennonite Church, Nappanee, Ind., May 2; Church of the Brethren, West Goshen, May 15; Goshen College, June 11.

—Beulah Smith.

Ladies' Chorus

The Ladies' Chorus is on organization corresponding to the Men's Chorus, maintaining as its ideal the fostering of a keener sense of appreciation for the highest in music. The group is selective and is composed of sixteen young women. Public appearances of the organization have been received with encouraging criticism.

The personnel of the chorus is as follows: first soprano, Pearl Detweiler, Grace Brunk, Dorothy Smith and Louella Eash; second soprano, Nellie Zook, Esther Leininger, Fyrne Miller and Beulah Smith; first alto, Verna Graber, Bertha Burkholder, Dora Shantz and Blanche Ropp; second alto, Elizabeth Graber, Florence Bender, Lois Lapp and C. Ruth Yoder.

The officers are: Director, Prof. B. F. Hartzler; President, Verna Graber; Secretary-Treasurer, Grace Brunk; Business Manager, Florence Bender; Reader, Mrs. Glen R. Miller; Pianist, Hazel Stauffer.

Music Department

Someone said once that it is better far to stumble gazing at a star than to be allured by the feeble light of the glow-worm. If what men would do is what exalts them, then the musical organizations of Goshen College merit consideration. There was effort made during the year to foster standards which would bring favorable reflection upon both the department and the institution, and, judging from an appreciative and enccuraging public, it may be said that definite progress was made toward that end.

In addition to the classes in rudiments, sight-singing and harmony, there was the work done by the organized choruses. Also, there were courses offered in voice and piano. The department aims to furnish the elementary theory of music, a general appreciation for music, an opportunity to learn to sing and to appreciate the more difficult classical selections, and to furnish a high type of entertainment for our college community.

—Beulah Smith.

Teacher Training

The students of Goshen College who are preparing themselves for the work of teaching in high schools are given the opportunity to do the required amount of observation and practice teaching under expert supervision in the public schools of the city of Goshen. Upon the satisfactory completion of this work plus the completion of the required amount of scholastic work the student is given, by the state, a right to teach in the high schools of this state. Other states also honor this right to teach in their high schools.

The aim of the work of practice teaching in the local public schools, under the direction of the Department of Education of Goshen College, is to give the prospective high school teacher the distinctive advantage of efficient professional training in the wholesome environment of a Christian college. Teaching is a matter of doing specific things in the total teaching situation and doing these things correctly. The teacher training work under the direction of Goshen College enables the student teacher to get first hand experience in actual teaching in the public school. Along with this experience expert training and guidance is given. The teachers who are chosen for the work of serving as critic teachers are a highly selected group in their profession

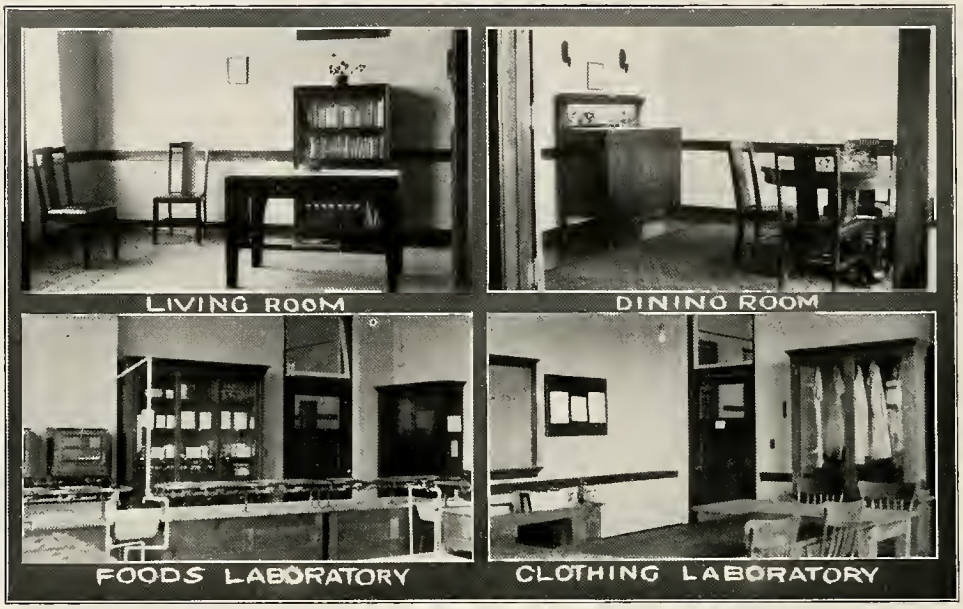
It is necessary that the public school teacher have an adequate stock of knowledge of the practice of teaching and be well grounded in the subject matter to be taught in order to meet with success. But it is more important that along with this necessary knowledge and expertness the teacher have an adequate supply of Christian character and enthusiasm if worth while outcomes of teaching are to be realized. Such dynamic, concomitant outcomes of teaching as high ideals, sound ethical principles, the will to live righteously, and socially desireable attitudes are not taught directly as are the laws of nature, geometrical theorems, algebraic equations, or even creeds. They are "caught" rather than "taught". And those teachers who possess an abundance of Christian character are the ones from whom the pupil is most likely to "catch" desirable ideals, attitudes, and values of life. It is the hope and aspiration of Goshen College that her sons and daughters who enter the public school work will be well equipped to transmit that portion of the world's store of accumulated ideas and culture entrusted to them for transmission according to the well established and currently accepted principles and practices of teaching. But more than this, it is the hope and aspiration of Goshen College that those of her students who enter the teaching profession will radiate the life-giving force of the Jesus-Way-of-Living in such a manner that pupils who come in contact with them will "catch" something of the Vision Splendid. For after all, it is the Spirit of the Master Teacher that is the greatest dynamic force working for progress of the culture of the human family.

The future of the teacher training work in Goshen College is assured. The Department of Education has met with the whole-hearted co-operation of the various critic teachers engaged in the work, and particularly has the Department enjoyed the moral support of Superintendent Foreman and Principals Walter and Galentine. Their enthusiastic cooperation is highly appreciated. The future outlook of the work is very promising. As the work progresses the appreciation of the fact that a valuable and necessary work is being done grows in the community. The full fruition of the appreciation of the value and necessity of the work will be a larger and better Department of Education and an ever increasing number of trained Christian teachers. And thus will the efficacy of public school teaching be increased in the future.

—R. B. Hohn.

GOSHEN COLLEGE
MAPLE LEAF

Home Economics



Many years have passed since the time when it was necessary to justify the inclusion of Home Economics in the curriculum of our State Colleges and Universities. The rapid development of Home Economics in the public school system since 1870 demanded a corresponding development of Home Economics teacher training courses. But the movement did not cease at that point. Strange as it may seem to some traditionally minded people, Home Economics has been recognized as an essential phase of a liberal education. We need to cite only a few examples. Vassar College, that prominent women's college, which before 1923 offered only classical courses, added a course in Euthenics to its curriculum as a field for major study. Euthenics has been defined by Mrs. Ellen H. Richards, the founder of Home Economics, as "the betterment of living conditions through conscious endeavor, for the purpose of securing efficient human beings". Smith College, also awake to the need for some definite solution of the problems of their graduates, organized an "Institute for the Coordination of Women's Interests", a graduate department offering opportunity for research in the problems of the home.

The adventure of Vassar and Smith does not seem so startling when we consider that the sociologist still recognizes the family as the fundamental basis of society, and that no other institution has contributed more to the normal, unified development of the child than the home. From the standpoint of economics, the home presents three aspects: consumption, production, and distribution of wealth.

Home Economics has been a part of the Goshen College curriculum since 1916. Some recent changes have been made in the content of the curriculum. As the present course is outlined, it meets the need of two classss of students: (1) those students who are preparing to teach Home Economics in the secondary schools; (2) those students who desire to elect some courses for general information and appreciation of the field of Home Economics. It is the aim of the department to ever keep before the students the goal expressed by Mrs. Richards at a Home Economics Conference in the year 1904:

"Home Economics stands for the ideal home life for today, unhampered by the traditions of the past; the utilization of all the resources of modern science to improve the home life; the freedom of home from the dominance of things, and their due subordination to ideals; the simplicity in material surroundings which will most free the spirit for the most important and permanent interests of home and society."

—Edith Witmer.

Organizations

With a vision of a great church need, J. S. Coffman and J. S. Hastzler envisaged and ultimately effected an organization which resulted in the establishment of Goshen College.

"For we are his workmanship, created in Christ Jesus unto good works, which God hath before ordained that we should walk in them."—Eph. 2:10.

Young People's Christian Association

The administration began in April 1926 and closed in the same month of this year. We sincerely believe that our work has been fairly successful in at least a few directions. First, we feel that there has been a growing consciousness on the part of the students that it is their organization and that they owe a wholehearted allegiance to it. Second, an improvement in the nature of the meetings was also apparent—the many participating instead of the few. Third, outside contacts were made with practically all the churches in our immediate constituency.

As before we repeat the purpose as stated in the constitution, it being so broad and far-reaching that should it be carried out the "Y" would become the greatest organization on the campus. It would then lead every student to a belief in Christ, to membership and service in the Christian Church, promote the spiritual growth of each one, permeate the campus with an ideal moral and religious spirit, and send men to the four corners of the globe as witnesses for Christ. To work toward this ideal the work is divided among the following committees: Devotional, Bible Study, Mission Study, Social, Employment, Membership, Extension, and Finance.

The Devotional committee provided a devotional meeting each Thursday afternoon after the last class period. Most of these meetings were sectional for men and women. A number of times, however, we had outside speakers at which times the meeting would be conjoint. President Yoder addressed us January 27 on the subject, "What I Would Do if I Were a Boy Again". March 24 Brother Dahlgren of the Home Mission in Chicago told us the story of his conversion, it being actually one of the most remarkable conversions in the world. The attendance at all these weekly meetings was excellent on the average.

The Bible Study committee arranged the Tuesday evening discussion groups for the first semester. The Academy boys were led by Delmar Hershberger, using "The Many Sided David" by Philip E. Howard as a text. The Academy girls were led by Mary Fretz, using Murray's "With Christ in the School of Prayer". The College Freshmen men studied "Things Most Surely Believed" by Verkuyl with Professor H. S. Bender as group leader. The Freshman women studied "Bible Studies by Doctrines" by Sell with Elizabeth Gish as group leader. Professor G. F. Hershberger and the Sophomore men discussed "Enlisting for Christ and the Church" by H. A. Johnston. Dora Shantz and the Sophomore women discussed "Life Abiding and Abounding" by W. M. Griffith Thomas. The Junior men with Professor Edward Yoder used "The Acts of the Apostles" by W. H. Griffith Thomas. The Junior and Senior women with Dean Oyer used "Devotional Leadership" by Verkuyl. The Senior men and Professor John Umble discussed Harrison S. Elliot's "How Jesus Met Life Questions".

The second semester the Missions committee provided five classes—two for upper classmen, two for lower classmen, and one for the Academy. The College groups were given the privilege to sign for the preferred course. One group of upper classmen studied Sailer's "The Moslem Faces the Future", Professor H. S. Bender the leader. The other group with Professor John Umble discussed J. W. Jent's "The Challenge of the Country Church". One group of lower classmen used Zwemer's "The Unoccupied Fields of Africa and Asia", Professor G. F. Hershberger leading. The second group with I. E. Burkhart based its discussions on C. G. Trumbull's "Taking Men Alive". Maurice Yoder and the academy group used Margaret E. Burton's "Comrades in Service".

Besides various social functions which are provided by classes and literary societies the "Y" arranged for a get-acquainted social in the fall of the school yea

and another after the Christmas vacation. Both of these were attended and enjoyed by faculty, students, and friends.

A new feature of our work was the arrangement and rendition of religious programs in practically all the Mennonite churches in Indiana. The range of subjects was somewhat as follows: The Inner Life, The Christian's Service, The Cry for Peace, Christian Education, and Missions. This work had been done before on a small scale, but this year a special effort was made to make as wide a contact as possible. We feel that students, as well as the churches visited, have been much benefited.

The year was closed with a surplus in the treasury. The annual drive totalled $1225.00. The budget provided that the amount raised be distributed as follows: seventy-five dollars for M. C. Lehman's support, fifty dollars for local expenses, two hundred and fifty dollars for gymnasium improvement, and the balance, eight hundred fifty, for the endowment fund of Goshen College.

—I. E. Burkhart.
—Elizabeth Gish.

Foreign Volunteer Band

PRESIDENT ---------- Elvin V. Snyder
SECRETARY ---------- Dora Shantz

The work of the year has been divided into three phases. We have had lectures by prominent speakers, book study, and a nine point debate on the religions of the world.

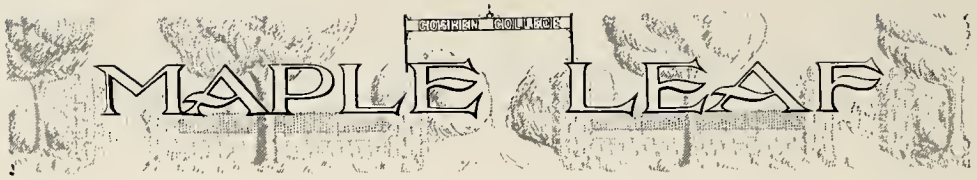
President S. C. Yoder, secretary of the Mission Board, spoke to us on "The Relation of the Volunteer to the Board". Brother J. A. Ressler spoke on "The Personality of the Missionary", and Brother Richards spoke on "The Reason of Our Faith". We also had a splendid visit by Miss Rounds, travelling secretary for the Student Volunteer Movement. While our group is not a member of the large movement we appreciated very much this helpful contact.

The book which we read, "The Christ of the Indian Road", is considered by many fundamentally unsound in some parts. We did not fail to recognize those parts. In our discussions we tried mainly to catch the Indian's attitude toward Christianity and, if it is possible to separate the two, toward Christ. With all the faults of the book we have learned three things. First, a snobbish superiority complex in a Christian disqualifies him to be a foreign missionary. Second, "Our" Christ is a "Universal" Christ. Third, we tried to catch the spirit of Oriental mysticism which makes our Christ the great living reality in our everyday lives. He is the Great Contemporary.

The third part of our program of studies was a discussion of the important religions of the world. Each member of the Band prepared one of these and discussed it with reference to its founder, Scheme of Salvation, Ethics, and future life.

As Volunteers we are unable to revolutionize the world in favor of Christ by mere human cultural schemes but it is our aim—whenever and wherever He calls us, to be the courageous, intense, self-denying witnesses that He enables us to be.

—Elvin V. Snyder.



The Christian Workers' Band

PRESIDENT ---------- Elvin V. Snyder
SECRETARY ---------- Mary Royer

In accordance with the purpose of the Christian Workers' Band we have encouraged a deeper missionary spirit, faced the call to home and foreign missions and studied some of the qualifications of successful workers.

During the year foreign missionary interest was stimulated by a study of the book, "Building on the Rock", written by our missionaries in India. A chapter by chapter review of this splendid book has given us a more comprehensive view of the work in India. The last meeting of this series was a biographical study of a few of our own pioneer missionaries. Another feature was our "Missionary Letters". This was just started and has brought us only a few letters. We certainly appreciate the messages they have for us.

Home mission work was stressed in a rather unusual way. Several meetings were spent discussing the evangelistic and missionary possibilities of the Sunday School —particularly those in rural communities. Professor J. S. Umble gave an illustrated lecture on "The Rural Church" emphasizing the importance of making the Church the centre of community activity, that is, that the principles of the Church, her leadership and power should permeate the intellectual, industrial, and social life of the community. Brother B. B. King told us some of his experiences and problems in city mission work. Another avenue of service which is much neglected was discussed by Professor Umble. He presented the need of training Mennonite young people to write missionary stories, stories dealing with other phases of life not only for our own church papers but also fulfilling a world mission.

Near the beginning of the year Dean Oyer gave a talk on "How to Build a Worker's Library". Besides discussing the need of helpful books and their selection he gave us a list of the most necessary ones and an outline of the types best suited for a foundation for a library.

—Elvin V. Snyder.

Student's Library Association

Officers

PRESIDENT ---------- Elizabeth Gish
VICE PRESIDENT ---------- Clifford Martin
SECRETARY ---------- Tilman Smith
TREASURER ---------- Howard Musselman
LIBRARIAN ---------- Beulah Smith

Book Committee

CHAIRMAN ---------- Prof. D. A. Lehman
AVON ---------- Nellie Zook
VESPERIAN ---------- Amanda Frey
AURORA ---------- Maurice Yoder
ADELPHIAN ---------- Willard Smith
HOMERIAN ---------- Sharon Brunk

The purpose of the Students' Library Association is to help to add new books to the college library each year. All students who are members of one of the college or academy literary societies are members of this association. The officers are elected from this membership. The finances are drawn from a certain per cent of the regular term fees paid into the literary societies. A book committee composed of a representative from each society and a faculty advisor select and purchase the new books.

At present the total number of books which the college library contains is more than eight thousand. Of this number fifteen hundred and seventy five have been contributed by the Students' Library Association during its history. Forty-six books were added this year and funds are available for further purchases. The annual budget generally approximates one hundred dollars.

Even though the college library receives other and more substantial appropriations each year, and its purchases enter the hundreds of volumes, yet the donations made through this student organization are of some appreciable value. The students are privileged to share in selecting books representative of their particular and general interests. Furthermore, the training in forming good judgments of books is valuable.

—Elizabeth Gish.

Student Lecture Committee

Faculty	Professor S. W. Witmer
Vesperian	Elizabeth Gish
Avon	Nellie Zook
Adelphian	Charles Fricke
Aurora	William Swartzendruber
Homerian	Elizabeth Graber
Homerian	Orvin Brunk

The Student Lecture Committee is composed of representatives from each of the literary societies and from the Faculty Lecture Course Committee. The chairman, Professor Witmer, has general oversight of the work.

This committee, upon advice from the faculty committee and in action with them, selects the most appropriate talent available in consideration of finances for the Lecture Course for the school year. It also has charge of the ticket sales and publicity of the course. This year the city of Goshen was canvassed by the literary societies advertising the course and selling tickets. This same kind of work was done to some extent in the neighboring communities.

It is the purpose of the college with the help of the Student Lecture Committee to put before the student body and the general public a series of numbers which are literary, educatioanl, and entertaining.

With the loyal support of the student body and the friends of the institution the course this year has been successful in every way.

The lecture course consisted of the following numbers:

Dr. Hilton Ira Jones, "Vibrations". Dr. Jones is a popular scientist. His lecture was well illustrated and very interesting.

Dr. J. H. Williamson, "The Making and Breaking of a Nation". The lecture contained many little known facts connected with essentials of Americanism, and the problem of crime.

Fay Cooper Cole, "The Great American Desert". Mr. Cole gave an illustrated travelog through this wonderful section of United States.

E. T. Hagerman, "The Man with One Window". A lecture of the inspirational type characterized by the suggestiveness of the subject.

Guy C. Caldwell, Pictures from Nature in the Rocky Mountain National Park. Mr. Caldwell imitated bird calls and gave an interesting and instructive lecture on the animal and plant life of the territory about his home in the Rockies.

All of these numbers excepting the last were secured through the Redpath Bureau. Mr. Caldwell was obtained through the American Nature Association. With increased financial means through appropriation and also through the success of the course this year, better talent has been arranged for next year's series. The proposed course contains a variety of interesting and instructive numbers.

—Nellie Zook.

Student Council

PRESIDENT ---------- Willard H. Smith
VICE PRESIDENT ---------- Nellie Zock
SECRETARY-TREASURER ---------- C. Ruth Yoder

The Student Council is an organization composed of representatives from the various classes and from each of the two Y. P. C. A. organizations.

The organization furnishes the students a means of expression for the purpose of "assisting in the development and maintenance of the best standards of college life and work, and cooperating with the faculty in establishing these standards".

Meetings of the council are called whenever occasion may demand. Recommendations to the faculty and students are made on various matters such as library regulations, conduct in chapel and general matters concerning student conduct and student interests.

The representatives from the classes are elected and those from the Y. P. C. A. organizations are appointed by the respective presidents.

The present members are: Seniors—Nellie Zook, C. Ruth Yoder, William Swartzendruber, Delmar Hershberger; Juniors—Amasa Kauffman, Chauncey Smucker, Willard H. Smith; Sophomores—Katie Yoder, F. S. Martin; Freshmen—Dale Bixler; Academy—Homer Hershberger, Edgar Frey; Y. W. C. A.—Verna Graber; Y. M. C. A.—Ezra Camp.

—Willard Smith.

Men's Dormitory Association

PRESIDENT ---------- Willard Smith
SECRETARY ---------- Delmar Hershberger
MEMBER-AT-LARGE ---------- Elvin Snyder

The Men's Dormitory Association had its origin in a movement in the college which gained considerable headway last year. The old system of dormitory government proving somewhat unsatisfactory, it was felt by some members of the faculty,

as well as by a number of the men students, that a new system ought to be inaugurated. The matter was discussed at several meetings of the men students called by the Dean, and the present organization resulted, at the opening of this school year.

The purpose of the organization is to cooperate with the faculty in maintaining good conduct among the men rooming in East Hall and nearby rooming houses, and in encouraging a spirit of good will among all men.

Representatives from the college upper classes carry on the work of the organization. They meet monthly, if necessary, as the association council, to consider and act upon the various matters that arise in connection with student conduct in East Hall and other places.

Though new, the association has been reasonably successful thus far in carrying out its purpose. It is felt by some, however, that part of its activities overlap those of the Student Council, and that the organization could be made a part of the council. Possibly this would be desirable, and undoubtedly a plan to combine the two organizations could be satisfactorily worked out.

—Willard Smith.

Goshen College Audubon Society

PRESIDENT ---------- Howard Musselman
VICE PRESIDENT ---------- Clifford Fisher
SECRETARY ---------- Ruth V. Yoder
TREASURER ---------- Wallace Miller

There has always been a number of bird-lovers among the students of Goshen College but until this year no organization whose sole aim is bird study has been in existence on the campus. A year ago a temporary club was formed and did some work in recording migrations. This year a permanent society has been organized.

On March 7 the constitution of the Goshen College Audubon Society was adopted and a few days later its officers were elected. The purpose of the Society is to stimulate interest in bird study, to encourage bird protection in the community, and to attract birds to the college campus. Membership is open to bird-lovers of the college and community. There are no regular meetings excepting the annual business meeting but programs may be given at various times.

Some of the important activities of the Society will be the identification and listing of the birds of the community and making a record of their migrations. This will be accomplished by field trips of the entire Society and by individual work of the members. A number of new nesting boxes and shelves were erected as a means of attracting birds. To encourage interest the Society has been instrumental in obtaining the Bird--Lore and other literature. Perhaps no other phase of nature study is as interesting and profitable as that of the birds and it is the aim of the Society to awaken popular interest in such work.

—Howard Musselman.

Freshmen-Sophomore Women's Debate

Top Row—Martin, Yoder, D. Roth, E. Roth.
Bottom Row—Royer, Hostetler, Lapp, Miller.

DATE—March 4, 1927

SOPHOMORE—AFFIRMATIVE	FRESHMEN—NEGATIVE
Mary Martin, *Captain*	Mary Royer, *Captain*
Dula Roth	Fyrne Miller
Ruth V. Yoder	Sylva Hostetler
Esther Roth, *Alternate*	Ada Lapp, *Alternate*

The question was:

"RESOLVED: That the American Negro should be encouraged to receive an industrial rather than a liberal education."

JUDGES

REV. S. L. YODER, of St. Marks M. E. Church.
REV. PAUL BROSY, of First English Lutheran Church.
PROF. D. S. GERIG, of Goshen High School.

The decision of the judges was two to one in favor of the Affirmative.

Junior-Senior Debate

Top Row—Stalter, Hershberger, Erb, Martin.
Bottom Row—Camp, Yoder, Kauffman, Smith.

DATE—December 3, 1926

SENIOR—AFFIRMATIVE	JUNIOR—NEGATIVE
W. T. Stalter, *Captain*	E. J. Camp, *Captain*
T. H. Erb	Amasa Kauffman
Delmar Hershberger	Samuel Yoder
C. P. Martin, *Alternate*	Tilman Smith, *Alternate*

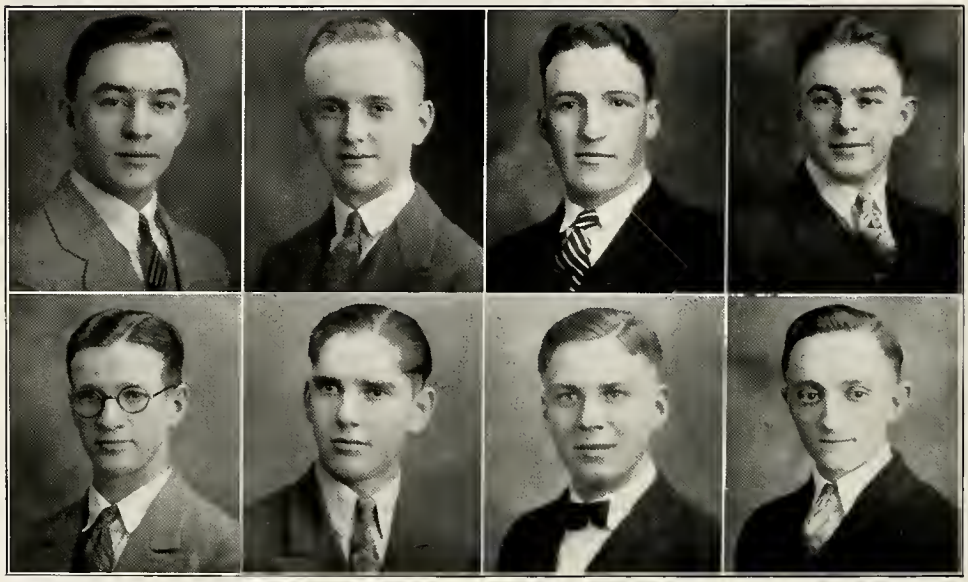
The question was:

"RESOLVED: That the Volstead Act in its present form has been justified by the results produced."

JUDGE: PROFESSOR CONKLING, of Manchester College.

The decision was in favor of the negative.

Freshmen-Sophomore Debate



Bottom Row—J. Bender, Holdeman, Amstutz, Fisher.
Top Row—F. Martin, Horsch, C. Bender, L. Martin.

DATE—December 17, 1926

SOPHOMORE—NEGATIVE	FRESHMEN—AFFIRMATIVE
F. S. Martin, *Captain*	John Bender, *Captain*
Paul Horsch	Ralph Holdeman
C. K. Bender	Clair Amstutz
L. J. Martin, *Alternate*	Clifford Fisher, *Alternate*

The question was:

"RESOLVED: That the Federal government should own and operate the railroads."

JUDGES

PROF. D. S. GERIG, of Goshen High School.
DEAN NOAH OYER, of Goshen College.
REV. S. L. YODER, of St. Marks M. E. Church.

The decision of the judges was unanimously in favor of the Negative.

The B. F. Deahl Peace Oratorical Contest

May 27, 1927

ORATORS AND SUBJECTS:

Howard Schertz—*Peace, How and When?*
Charles Fricke—*The Reign of Terror.*

WINNERS:

FIRST PRIZE — Fifteen Dollars in Gold — CHARLES FRICKE.
SECOND PRIZE — Ten Dollars in Gold — HOWARD SCHERTZ.

JUDGES:

On Thought and Composition:
Professor D. S. Gerig, *Goshen High School.*
On Delivery:
Rev. T. E. George, *Church of the Brethren.*
Rev. Paul Brosy, *First English Lutheran Church.*

The prizes for this contest were donated and presented by Hon. B. F. Deahl.

On account of the Easter tour of the Men's Chorus this contest was postponed from April 29 to May 27 to allow more men to enter; but press of work and plans for a second trip by the chorus — this time to Eastern Ohio — prevented a number of interested men from participating in the contest. Because only two men entered, the third prize (five dollars in gold) was not awarded.

In presenting the prizes Attorney Deahl gave some very practical suggestions for writing and delivering an oration and affirmed his conviction that "oratory will not die so long as there is a human tongue to speak and a human heart to respond".

Everyone enjoyed the half-hour "community sing" led by Tillman Erb while the judges were making the awards.

The Sam Lewis Discussion Contest

April 2, 1927

CONTESTANTS AND TOPICS:

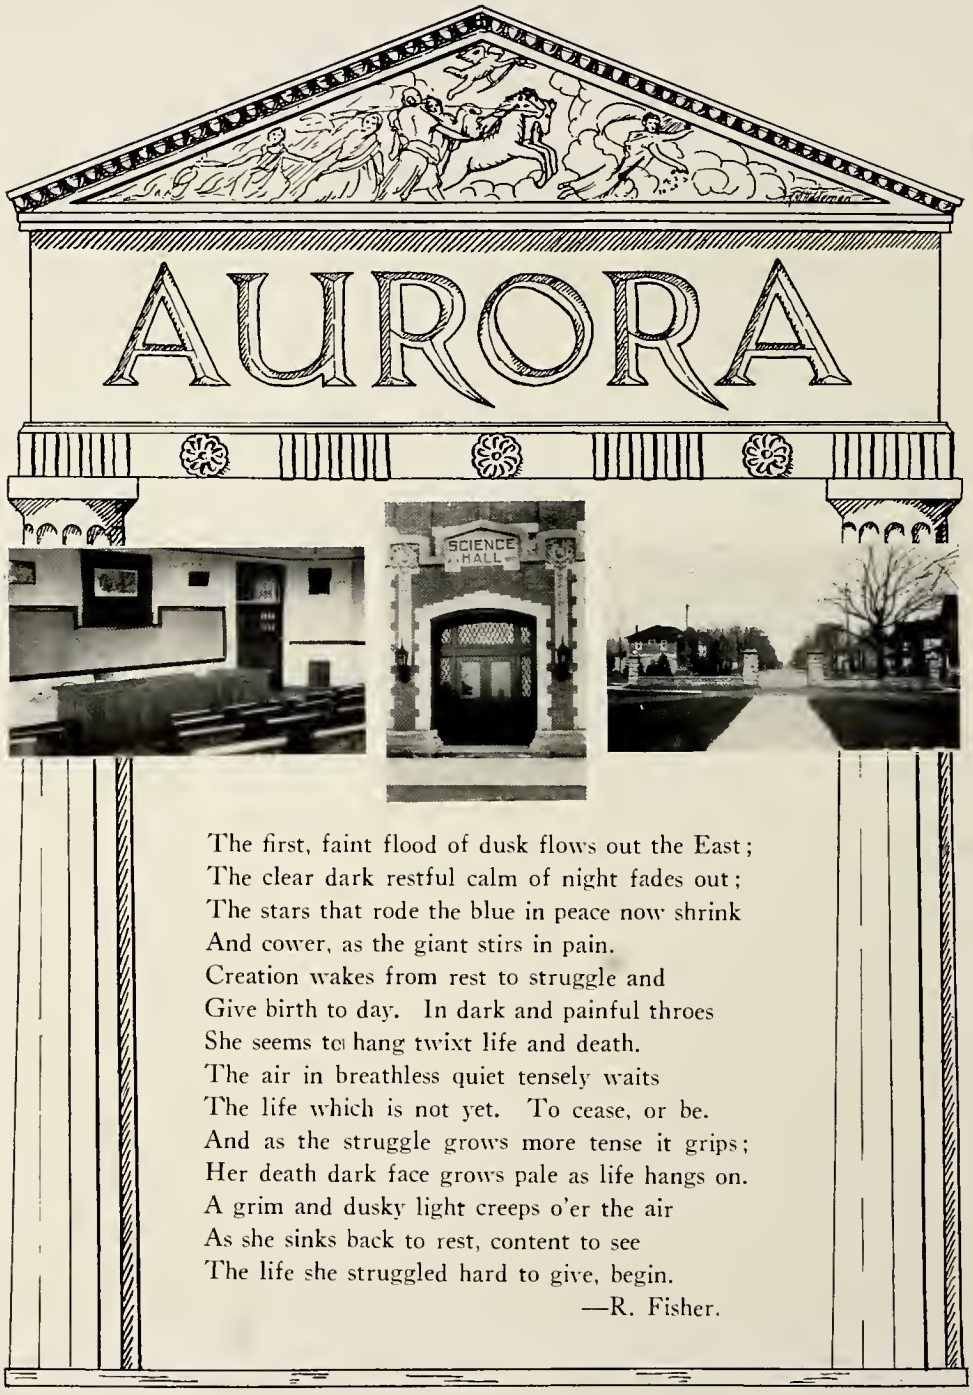
Amasa Kauffman — *The Brethren of the Common Life.*
Chauncey Smucker — *St. Francis of Assisi.*
Milton Vogt — *The Race for Rubber.*
Jonathan Yoder — *Man in the Universe.*
Samuel Yoder — *Edmund Burke's Attitude on Precedent and Innovation.*

WINNERS:

FIRST PRIZE — Fifteen Dollars in Gold — JONATHAN YODER.
SECOND PRIZE — Ten Dollars in Gold — SAMUEL YODER.

JUDGES:

Rev. Paul Brosy, *First English Lutheran Church.*
Rev. S. L. Yoder, *St. Mark's M. E. Church.*
Principal O. L.. Walter, *Principal of Goshen High School.*
The prizes for this contest were donated by Sam Lewis.



The first, faint flood of dusk flows out the East;
The clear dark restful calm of night fades out;
The stars that rode the blue in peace now shrink
And cower, as the giant stirs in pain.
Creation wakes from rest to struggle and
Give birth to day. In dark and painful throes
She seems to hang twixt life and death.
The air in breathless quiet tensely waits
The life which is not yet. To cease, or be.
And as the struggle grows more tense it grips;
Her death dark face grows pale as life hangs on.
A grim and dusky light creeps o'er the air
As she sinks back to rest, content to see
The life she struggled hard to give, begin.

Homerian

For a number of years the Academy of Goshen College was represented in literary work by two literary societies—the Ciceronian and the Philomathean. In October, 1926, the two societies united because of insufficient numbers in each society to carry on literary work successfully. At the end of the school term in the spring of 1926 the membership of the Ciceronian society was so small and the interest at such a low ebb that several meetings had to be dismissed because only a few were present. Due to the fact that the Philomatheans had nearly double the number of members, they got along fairly well. However conditions were such that at the beginning of the school year in September the societies voted unanimously to hold conjoint meetings throughout the year.

After several conjoint meetings were held it was suggested that the societies draw up a constitution and unite as a new literary society. A committee, appointed by the president, drew up a constitution which was accepted with slight changes. The new society chose the name Homerian, the motto "Gradatim" (Upward step by step), and colors green and white.

Since its beginning last fall the society has grown so that now its membership numbers over thirty. Interest in literary work has grown also. A number of entertaining and instructive programs were given. The Homerian Society presented two public programs. It has furnished lighting fixtures for the English room in the Science Hall where the society now holds its meetings.

The Homerian Literary Society's brief history shows progress and indicates a successful future.

—Floyd Metzler.

Physical Education

The finest type of education includes recreation and physical education in its program for the development of the full-orbed life. The program of athletics and physical education at Goshen College has always been viewed as an integral part of the major educational program—an important, though not the most important, part. Athletic life at the college has been wholesome and normal, not overemphasized nor suppressed. The spirit of the college and its traditions have insisted upon a good intramural system for the benefit of the entire student body as over against an unbalanced inter-collegiate program for the benefit of the few.

The objectives of this program may be stated briefly as: (1) the maintenance of the physical well-being which is the basis for normal intellectual and spiritual life; (2) the furnishing of wholesome and enjoyable recreation and good fun; (3) the development of wholesome ideals of fair play and sportsmanship; (4) the equipping of prospective teachers and others to lead in wholesome recreational activities after leaving school.

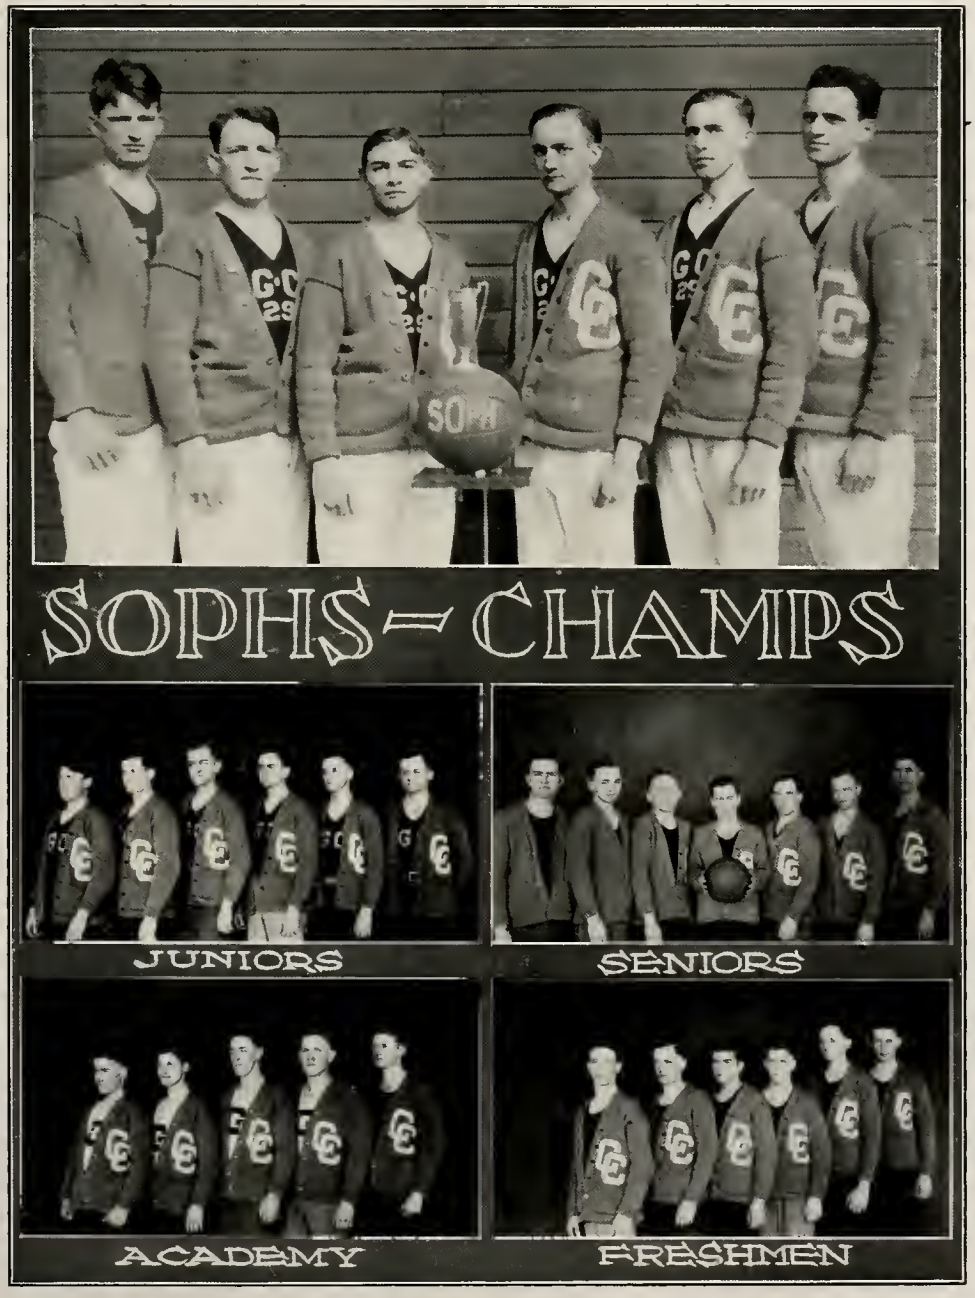
The actual program of athletics and physical education is carried on by two agencies, the physical education department of the college, and the two student associations—Athletic Association and Tennis Association. The entire program is under the supervision and direction of the Faculty Committee on Athletics.

The athletic program of the student associations includes the seasonal sports, tennis, baseball, basket ball, track, horseshoe, and minor sports. The physical education program of the college includes compulsory classes in physical education for the first two years of the college course under trained directors, as well as an optional course for upperclassmen designed to prepare for leadership in recreational activities in schools and elsewhere.

The facilities and equipment for this double program are well adapted to the needs of the small college. During the past year much progress has been made in the improvement and extension of equipment and facilities, and the program of the college includes constant improvement and enlargement. About five hundred dollars worth of equipment was added for the use of the physical education classes and installed in the small gymnasium. Mats, parallel bars, bar stalls, flying rings, trapeze, and chest weights were secured. A great improvement was made in the large gymnasium, which is a building of approximately 50x90, with arched ceiling. The interior walls were lined, bleacher seats for two hundred were installed, a shower room with hot and cold water, and an adjoining heated dressing room were constructed. The expense of this improvement was borne equally by the administration of the college and the athletic association. The regular facilities for athletics include five excellent tennis courts, a baseball diamond, an eighth-mile running track, and horseshoe courts. The recreational facilities of the student body are further enhanced by the excellent boating and skating furnished by the Elkhart River and Dam which are less than a half-mile from the campus.

The future program of the Athletic Association and the Faculty Committee on Athletics includes constant enlargement and improvement of the facilities and equipment, strengthening of the courses in physical education, extension of the regular required annual medical examinations to include thorough physical examinations and corrective work, and more universal acceptance of the ideals and traditions of the college in regard to the entire program. —H. S. Bender.

ATHLETICS



Athletics

FRESHMAN

SOPHOMORE

AURORA

ADELPHIAN

VESPERIAN

AVON

Athletics

The primary athletic activities outside of the regular physical education classes were basket ball, tennis, track, and baseball. Of these four, basket ball and tennis predominated.

Beginning about November 15th the basket ball season held sway until the final game of the class tournament on March 19th. The four college classes, and the academy as a class, entered the race for the championship. A schedule of eight games for each team was arranged. The five teams fought steadily during the season and when the final game was played, three teams were tied for first place. A class tournament was then arranged which resulted in the championship for the Sophomores. The record of each class follows:

SOPHOMORES

Athletics

All season the teams of the class league were so evenly matched that no one knew how to anticipate results. The Academy, Sophomores, Juniors and Seniors each took their turn in administering a surprising defeat to their opponents and again on "off nights" were forced to submit to an equally surprising drubbing.

All teams were again placed on equal footing for the tournament held March 18th and 19th. The Freshmen and Juniors drew to play first and the Juniors won by the score of 26-13. The victorious Juniors then took on the Seniors in the semi-finals but were put out of the running by the score of 12-8, Seniors. The Sophomores and Academy played their semi-finals which resulted in a victory for the Sophomores, 29-17. The finals were then played on Saturday night March 19th between the Seniors and Sophomores, in the presence of a large crowd. In spite of all the aspiring Seniors could do, the Sophomores took the laurels in a thrilling game. The final score was 21-17.

This year the spirit manifested between the Auroras and Adelphians was exceptionally keen and probably drew a larger per cent of supporters than the interclass competition. It was thought at the beginning of the season that the Auroras would furnish more than the Adelphians could overcome. The results of the games proved somewhat different. In the first game the Adelphians managed to get 19 points to the Auroras' 12.

In the second game of the series both teams resorted to a strong defense; consequently the outcome was a low score, 12 to 11, in favor of the Adelphians.

The Auroras still had hope of a better working combination, and encouraged by their splendid showing the second game determined to make the count at least 1 out of 3 but the old Adelphian quintet proved too strong and defeated their brothers 28 to 20 in spite of a late rally of the Auroras.

Throughout these games the Adelphian team work was somewhat superior and made possible the three wins of the season.

The interest in girl's basket ball also centered around inter-class and inter-literary games. Three class combinations contested the right of superiority—the Freshmen, Sophomores, and Junior-Seniors. The two former teams furnished the real competition. It took three hotly contested games to convince the Freshmen that the Sophomores were superior. The victorious Sophomore team was composed of Grace Brunk and Pearl Detweiler, forwards, Mary Martin and Esther Roth, centers, and Mabel Wyse and Mabel Roth, guards.

No less exciting was the race for honors in the literary society contests. But here again one team got all the victories. Each game was close and interest never waned in the large crowd that was always present. The Vesperians each time emerged victors, and so this year stand alongside the Adelphians as victors over their rival societies—the Avons and Auroras.

Tennis was the most universal recreational activity. Whenever weather permitted in the fall and spring the courts were to be seen constantly in use. About the middle of April five separate tournaments were launched by the Tennis Association. At present, May 31, they have been only partially played off so nothing can be stated as to victors. The tournaments include men's singles, men's interclass doubles, mixed doubles, women's singles, and women's doubles. I. E. Burkhart, the men's singles champion of last year, is again in the tournament, as is the winning class team of last year—Jonathan Yoder and Charles Fricke, a Senior entry.

Baseball held the interest of some. Up to date the best games have been upper-classmen vs. lower-classmen. The upper-classmen have shown better pitching and team play while the lower-classmen have excelled slightly in batting. In the three games scheduled, the upper-classmen have been able to defeat their rivals.

An inter-class track meet was arranged. On May 31st the classes struggled for honors in ten events on the field and track. Charles Fricke, Ezra Camp, Wilbur Shenk, Earl Byler, and Sharon Brunk are respective captains and trainers for the Seniors, Juniors, Sophomores, Freshmen and Academy. A record of the event will be found at the end of College Life.

We are proud of the accomplishments of our athletic program this year, not so much because we think we have been superior in our athletic skill for in that there is yet much to be desired, but because high standards in sportsmanship at games, and wholehearted cooperation within classes and other organizations was manifest throughout the year. We highly value the experience in team play that this year's athletics has given us.

The Alumni Association during this year has been active and has been interested in the future of Goshen College. There has not been a great deal of solicitation, but the future looks favorable and especially should the older alumni be stimulated to hear that the out-going members of the senior class to April first have pledged to the Alumni Fund as a class gift the sum of two thousand, one hundred and twenty-five dollars.

With the present world-wide competition between colleges and universities as well as between individuals and other organizations, the endowment funds of colleges are of serious import. State universities gain a great deal of their support from appropriations by the State Legislature. The small college has no such advantage. Goshen College, to be specific, must depend upon her Alumni, former students, and her friends. It naturally will take some time to have this endowment take on form adequate for our institution. But this must be done if Goshen is to compete successfully with other institutions doing a similar work. The raising of the endowment must be done persistently and systematically not just for one year but for many years. You will note that our large institutions that have millions of dollars in endowment have been accumulating this wealth for many years, hence their great power. They are able to take care of many students as well as to surround themselves with great minds to carry on their work. As I said before Goshen College must look to her Alumni and the Mennonite Church, which is primarily her constituency, for the major part of her future success. For these two organizations not to support Goshen College would be suicidal to the education of young folks from Mennonite homes in a Mennonite college.

As the writer has stated in the past, unfortunately no one of exceptional wealth has graduated from Goshen, and since the constituency of Goshen is somewhat limited she has not had the privilege of coming in contact with men of wealth as have other denominational institutions having a much larger patronage. However as I see the products of Goshen I still insist that those leaving Goshen College are just as fit and worthy to fill their places in society as are the graduates of large universities.

I have faith in the graduate of Goshen College. There is just one criticism that I would like to make about college graduates in general. Conditions in college are more or less ideal and should be so. However,, when some students leave college and their taught idealism when carried to the "man in the street" does not work, they feel discouraged and wonder what it is all about and it takes time for such students to find their place in society. Permit me to say to the student that the sooner the rough corners are rounded the sooner and greater will be his usefulness to the community in which he lives. That does not mean that it is necessary to sacrifice one single ideal taught in college, but only to apply them to everyday life without friction to the man with whom you associate who very often knows nothing about many of the things you were taught in college.

So permit me to give a word of encouragement to all who are interested in Goshen. Yes, she has probblems, many of them, and not the least the financial problem, but systematic giving by everyone interested will surely place Goshen where she should be.

—Dr. S. T. Miller.

Mennonite Historical Society

PRESIDENT ---------- H. S. Bender
V. PRESIDENT ---------- Elvin Snyder
SECRETARY ---------- Olive Wyse
TREASURER ---------- C. L. Graber
LIBRARIAN ---------- E. H. Correll

The Society entered the new year with a reduced membership due to changes in the student body. However a vigorous campaign for new members increased the membership to over one hundred, the largest number that has yet been on the roll of active membership. Dr. Elmer E. S. Johnson of Hartford, Connecticut and Hereford, Pa.. was elected corresponding member.

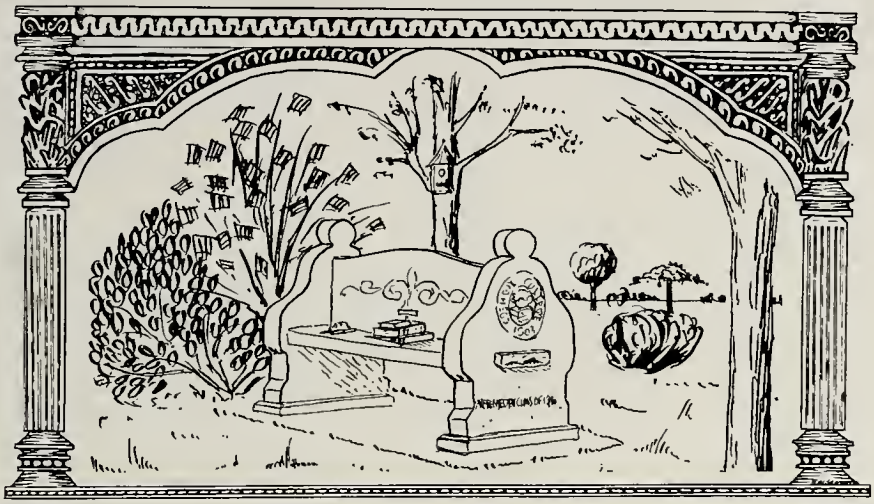
In accordance with the change in the constitution the number of regular meetings of the Society was reduced to four. At the first meeting Dr. Elmer E. S. Johnson addressed the Society on "The Coming of the Mennonites to America"; at the second meeting, Orie O. Miller of Akron. Pa., addressed the Society on "The Present Mennonite Migration"; at the third meeting, Quintus Leatherman of the senior class, whose home is in the Franconia district in eastern Pennsylvania, addressed the Society on "Historic Franconia", the address being illustrated with slides and photographs; at the fourth meeting Dr. C. Henry Smith of Bluffton, Ohio, addressed the Society on "Mennonite Immigration to America to 1880". The addresses were all of high quality and of real value as well as interesting.

The second major feature of the work of the Society during the year was the building up of the Mennonite Historical Library at the College. A large number of old and rare volumes were added to the library, over 150 having been received. The majority of the accessions were American Mennonite imprints. The funds of the Society were used to augment donations of volumes by individuals. The most important accessions of the year were Dietrich Phillips' *Enchiridion* in a Dutch edition of 1572 and a copy of Christopher Dock's *Schulordnung* of 1770 (2d. ed.) together with a complete set of Saur's "Ein Geistliches Magazien", 1764-1774. A fairly complete report of all accessions was made in the columns of the College Record during the year. The Record kindly placed one page in each issue at the disposal of the Society.

In the spring of the year the Society secured a room on the third floor of the Administration Building, formerly Philomathean Hall, as a library and a seminar room for Mennonite History. The Historical Library was moved to this room, the majority of the volumes being installed in glass front cabinets. The room is equipped with tables and is at the disposal of students and others desiring to work in the library.

The Society issued no publications during the year but several contributions of historical nature were made to the Mennonite Quarterly Review, published by the College, which was established in January. Attention is here called to the exhaustive bibliography of American Mennonite Literature now being published in that journal by a member of the Society. The volumes in the Mennonite Historical Library at the College are listed in the bibliography. The gaps in the list show that there still a large number of American Mennonite imprints to be secured. The Society will appreciate the cooperation of friends in building up the library. There are a large number of such books throughout the churches which should be gathered together for safe keeping and made available for use of students of Mennonite history by being deposited in the library at the College.

—H. S. Bender.



College Life

Life alone is a tragedy. Friendships and memories of outings, walks in the woods, and the natural in an unnatural setting fill experience with zest and make College Life cultural.

Calendar

SEPTEMBER

Wednesday and Thursday, 22 and 23—Registration. On the evening of the 22nd the girls have a "mixer" in the Reception Room while the boys are entertained at College Point.

Friday, 24—Opening Reception given by Y. P. C. A. in Reading Room. J. S. Umble introduces faculty members while I. E. Burkhart introduces the twenty-four Seniors. Refreshments consisted of ice cream and wafers.

Saturday, 25—Cold day. Boilers not installed and everyone is freezing. Christian Workers' Band give their first program.

Sunday, 26—Water rushing over dam. A beautiful day. Girls busily engaged in interior decoration of Kulp Hall.

Monday, 27—Registration reaches the 150-mark. Recitations begin. President Yoder delivers term address on "Why I am in College".

Tuesday, 28—Prof. Hartzler informs Myers that before he could buy one of his efficient fruit jar brushes he must get some one for the other end.

Wednesday, 29—First weekly prayer meeting. Miss Loucks hears moans somewhere in Kulp Hall and discovers that it is someone taking a voice lesson. Some East Hall men have a "hamburger fry". "Dime" Schertz believes in physical culture as was demonstrated by his extended hike in the country.

Thursday. 30—"First Things First" discussed in Devotional Meeting. Miss Witmer gives talk on table etiquette in Dining Hall.

OCTOBER

Friday, 1—Ohio group surprises Prof. Umble by going out to his home and having a party.

Saturday. 2—A group of young men go out into the country to cut corn for Jesse Smucker.

Sunday, 3—Pres. Yoder preaches the sermon using the text "Where Art Thou?" Misses Landis and Klopfenstein entertain Misses Witmer, Burkholder, and Wyse.

Monday, 4—Literary Societies begin soliciting new members.

PICTURES have, since the Stone Age, held a strange facination for mankind. In these days of perfected portraiture this interest is even more powerful. It does not require a a powerful imagination to conceive the presence of a friend when his photograph is near at hand. Why not give your friends such a reminder of yourself? Our Studio is equipped in an up-to-date manner in order to achieve artistic results. A visit to the Studio is most welcome

The College Record

IS the student publication of Goshen College. Records the most outstanding happenings of the month. Seeks to reveal student life and enthusiasm. Serves as a medium for the exchange of student opinion. Attempts to reflect the best in student thought. Aims to serve the highest interests of the Church and College.

DEPARTMENTS:

Editorial Religious, Campus Opinion, Literary
College News, Alumni and Athletic

PRICE $1 PER YEAR $1.75 FOR 2 YEARS

A TYPICAL AMERICAN

(Tilman Erb to Cop in Chicago) "Where do we get the street car?"
(Cop Pointing) "Right there."
Tilman Erb—"Must we wait for it?"
T. Smith—"No, let's go and hunt it up."

VERY LIKELY

(E.. Camp while coasting swiftly down hill) "Gee! at this rate we could get to Chicago."

(Prof. Hartzler in Men's Chorus practice) "What's the matter with you fellows! I can play the black keys or the white keys, but you don't sing either, you all sing in the cracks".

A peculiar fact of the Freshmen of '30, in general not well known,
Is that they have one thing in common, which they call their crazy "Bohn".

Mayme (on crowded trolley car): "Wotcha got in that package, Sadie?"
Sadie: "One of them portable radios."
Mayme: "Chee! If you can tune in 'The Star Spangled Banner' mebbe we can git a seat."

It takes about 1500 nuts to hold an automobile together, but it takes only one to scatter it all over the landscape.

"Can your wife keep a secret?"
"According to her idea of secrecy, which is telling a thing to only one person at a time."

Teacher: "Robert, give me a sentence using the word 'satiate'."
Bobby: "I took Mamie Jones to a picnic last summer and I'll satiate quite a lot."

LaVerne Sommers: "I just washed my hair and I can't do a thing with it."
Ralph Myers (who has just stepped on her toe): "That is just the trouble with my feet."

"What is this World Court they're talking about?"
"I guess it must be the place they're going to hold the International Tennis matches."

Teacher: "Use the word boycott in a sentence."
Student: "It rained that night and the boycott an awful cold."

"Have Indians any distinct social groups?"
"Sure, haven't you heard of those Indian clubs?"

A CHRISTIAN Institution devoted to the training of young men and women for Christian Service in the active pursuits of life. It has a faculty of Christian Men and Women who are trained in the best institutions and well equipped to give instruction in their respective fields.

The following courses are offered: College, leading to A. B. degree, Bible, Academy.

Reasonable rates, excellent environment, commodious buildings, ample laboratory and library facilities, and beautiful campus.

An Appreciation

A final word of appreciation is due to those who have contributed to the success of this book. To Harold S. Bender, our advisor, who has given us helpful suggestions and criticism, to the business men who have helped to make possible this publication by their advertisements, and to those who have contributed articles, we are truly grateful.

—The Staff.
